

# TWO HUNDRED LOST AT SEA; VESSEL BURNS

Steamer Sardinia, Bound For Alexandria,  
Egypt, From Liverpool, Burns To  
Water's Edge.

## IN SIGHT OF HARBOR OF VALETTA

High Sea And Strong Wind Prevent Other Vessels From  
Coming To Their Aid, And All Thought To  
Have Perished Miserably.

[BY ASSOCIATED PRESS.]  
Valletta, Malta, Nov. 25.—One of the worst maritime horrors ever reported from this port came this morning when the steamer Sardinia, of the Egyptian line, was destroyed by fire just off the port.  
**Two Hundred Lost.**  
As near as can be estimated two hundred passengers and members of the crew are believed to have perished miserably either from the flames or by drowning in trying to escape from the burning craft.  
**Just Started.**  
The vessel had just left the port en route for Alexandria, Egypt, and was scarcely a mile off the Great Harbor when the first flames appeared but the strong wind blowing fanned it into a fiery furnace in a few seconds.  
**Too Quick.**  
So quickly did the flames spread that the passengers and crew had but little chance for their lives.

## MAKES A STATEMENT ON SERVANT PROBLEM

Mrs. G. E. Beedle, Wife of Insurance Commissioner, Sums up Position.  
[SPECIAL TO THE GAZETTE.]  
Madison, Nov. 25.—"Let a girl become a stenographer, a saleswoman or even a stenographer for even the street oftentimes is a better place of employment than the modern kitchen."  
In the foregoing words Mrs. Beedle, wife of Wisconsin's insurance commissioner, summed up her position upon the servant problem in an interview today. And this statement is characteristic of Mrs. Beedle, who is not a maker and who is seldom seen at the meetings of clubs and who says, "I'm afraid I am a poor joiner, but I have always felt that if I had the means, the first thing I would do would be to open my house to down-trodden working girls and to teach them to be helpers rather than servants. Isn't it a great pity that the public takes such an uncharitable position relative to the maid? I know many bright, pretty girls whose careers have been blighted because they got into this work before they had acquired the necessary education for advancement. If it ever comes to the point where I was obliged to choose between begging and working out I would choose to beg." Then realizing the nature of her words she continued, "Yes, I believe I can still say I would."

## GREEN BAY HAS A SERIOUS EPIDEMIC

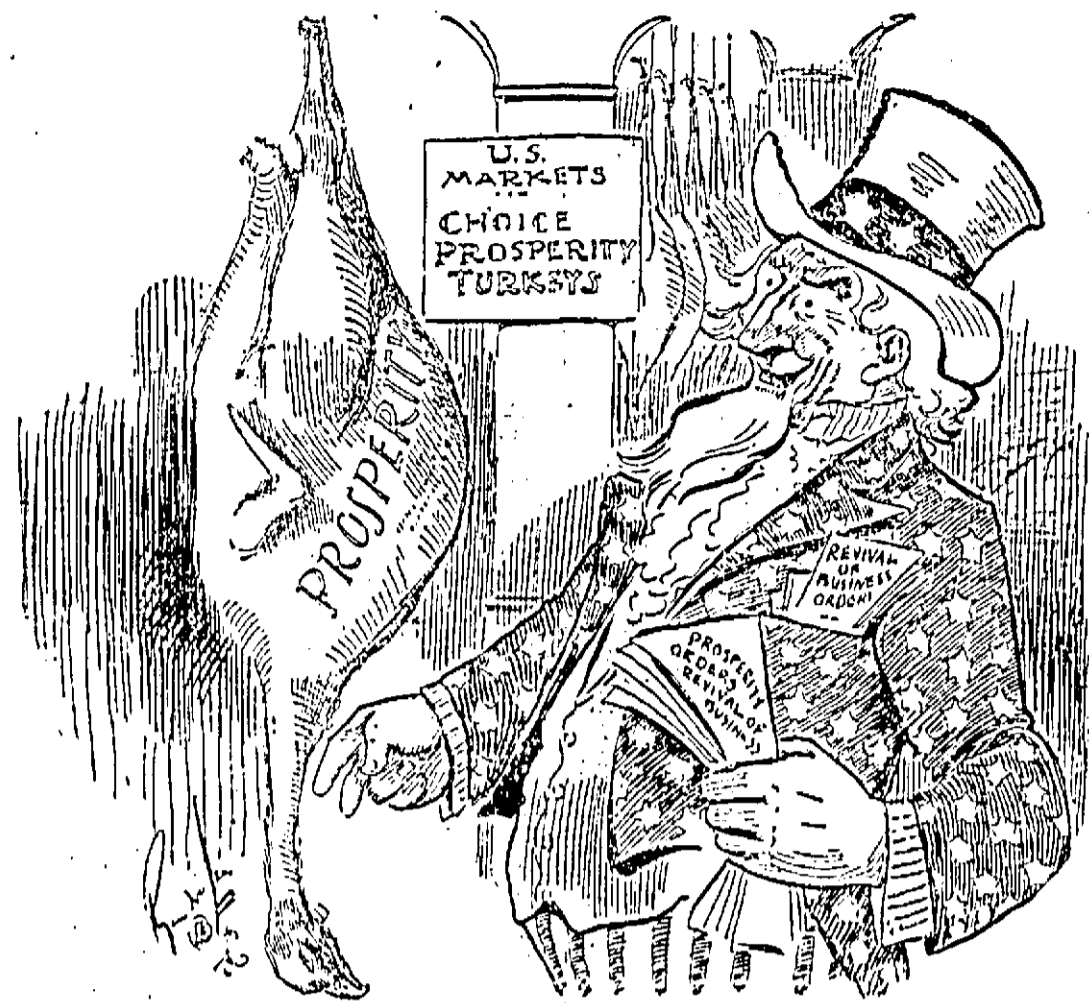

Health Commissioner Orders That All  
Schools Be Closed One Week on  
Account of Prevalence of  
Diphtheria.  
[SPECIAL TO THE GAZETTE.]  
Green Bay, Wis., Nov. 25.—Health Commissioner Rhodes ordered today that the schools of the city be closed for one week in an effort to stop the spread of diphtheria, which has now reached the proportion of an epidemic. A large number of new cases have been reported, many of them at serious nature. One of the public school teachers was stricken with the disease. Six deaths have occurred in the past two weeks.

## ANDREW CARNEGIE IS 71 YEARS OLD TODAY

Noted Multi-Millionaire Philanthropist  
Quietly Celebrates Natal  
Day.  
[SPECIAL TO THE GAZETTE.]  
New York, Nov. 25.—Andrew Carnegie, who has earned for himself the title of the world's most noted philanthropist-capitalist, was seventy-one years old today. Thanks to his simple life and regular habits, Mr. Carnegie is in the enjoyment of excellent health. Despite the willingness of his help and beard he might easily be mistaken for a man of sixty years or younger. His devotion to golf and other forms of outdoor recreation has kept him in the best of physical condition.  
It is estimated that Mr. Carnegie's public benefactions thus far in 1908 amount to about \$15,000,000. Since he made up his mind that it is not good to die rich he has given away a total of about \$150,000,000 of his personal fortune and he declares he is still ready to give. Notwithstanding the generous hand with which he has scattered his millions for the benefit of the people on both sides of the Atlantic there appears to be no chance of Mr. Carnegie dying poor. His income is estimated to be considerably in excess of his benefactions, though the latter average more than \$1,000,000 a month the year round.

## FOOD COMMISSIONER REVERSED BY COURT

Ruling by Emery That Benzene of  
Soda Should Not Be Used,  
Not Upheld.  
[SPECIAL TO THE GAZETTE.]  
Madison, Wis., Nov. 25.—Vegetable canners scored a victory in the federal court yesterday over the state dairy and food commissioner, J. Q. Emery, who sought to enforce a ruling of his own that the use of benzene of soda in the preserving of vegetables and other vegetables was unlawful, being, he declared, the use of a deleterious substance in a food product. The ruling of the state commissioner was promulgated in late effect on the first of December. He was argued with by representatives of the canners, who informed him that the federal government required that in the canning of vegetables for use in the army and navy benzene of soda must be used, and that if it is used in vegetables for the army and navy and sanctioned under the federal pure food laws, it ought not to be forbidden by an individual state through a rule promulgated by a department official and not forbidden by statute. However, the commissioner maintained that the use in food products of any substance deleterious to health was unlawful, and that benzene of soda was a deleterious substance. The canners thereupon secured attorneys and applied to Judge A. L. Sanborn in the United States district court for an injunction restraining the commissioner from prosecuting under his ruling. Judge Sanborn held a conference of the parties in interest and advised them that he was disposed to issue the injunction prayed for. Thereupon the commissioner decided to withhold his ruling for a time, until more expert and scientific information could be secured to determine the question of whether or not benzene of soda is deleterious to health when used in the process of canning vegetables.

[BY ASSOCIATED PRESS.]  
Manila, Nov. 25.—Admiral Sperry today received a telegram from the hospital ship Relief which arrived at Guam five days overdue. The ship was badly damaged by the typhoon on the 18th. The Relief is now proceeding to Manila under her own steam.

# INTERNATIONAL GRAND PRIZE RACE TOMORROW

Twenty Cars Have Been Entered For The Big  
Event Of The Savannah Races.

Savannah, Ga., Nov. 25.—The international grand prize race to be run here tomorrow has attracted to Savannah thousands of automobile enthusiasts from every part of America. The number of visitors is far in excess of the early expectations. The small car race today is a sort of appetizer for the great contest to be decided tomorrow. There are seven team contestants in the small car event, representing the leading manufacturers of America and Europe.  
But it is in the Grand Prize race to-morrow that public interest is centered. It is expected to be a struggle that for speed and daring has never been equaled in this or any other country. The circuit of 25.75 miles on the outskirts in the first Savannah race which was won by Strang with an Isotta. The old circuit has been lengthened and improved, and it is believed to be the fastest course ever offered for a race. There are no railroad crossings and the sharp turns have been banked sufficiently so that cars can take them at top speed. There will be fifteen laps of the course for the race, and at the start and finish a grandstand seating 10,000 persons has been erected. The local authorities have made ample provision for guarding the course and protecting the crowds of spectators.  
The first car in the big race will be sent off at 9 o'clock tomorrow morning and the other machines will follow at one minute intervals.  
Of the drivers who will pilot American machines Willie Hays, who will handle the Chrysler car, is perhaps the best known. He has taken part in many big races and piloted one of the cars in the recent Vanderbilt Cup contest. Alchenor, the Lozier pilot, drove in the previous Savannah race and in the Bricefield trophy contest, and he has been prominent in twenty-four hour contests in the vicinity of New York. Zengle and Harding are less widely known than the others, but they are counted as worthy rivals of the foreigners.  
The foreigners present a formidable array of expert race drivers and in each team are to be found winners of important contests. Perhaps the most conspicuous team is that from Italy for it contains Nazario, winner of last year's Grand Prix, German Emperor's Cup, and Florio races, and holder of the record for the fastest average time ever made in a road race. Wagner, also of the Fiat team won the 1906 Vanderbilt Cup race with a Darracq, and De Palma, the third Fiat driver, has won notable victories in races on this side of the water. Cagno of the Italia team was third in the last Florio cup race, averaging 66.4 miles an hour and Fournier, his team mate, also completed in the Florio cup race but was ditched in the fourth lap.  
The French team includes Lewis Strang, who this year has won the title of leading American driver, by capturing the Savannah, Bricefield and Lowell races. Saine, who will also pilot a Renault in tomorrow's race, won the Grand Prix race in France in 1906. Durray, the DeDietrich driver, was third in the 1906 Vanderbilt Cup contest and also drove in the same race the year previous. The Clement team, consisting of Negal and Hlavtans, is not as well known here as some of the other drivers.  
On account of the excellent showing made by the German drivers in the last Grand Prix race, the Benz and Mercedes teams are considered very highly by those who are figuring out tomorrow's winner. Hemyer will handle a Benz machine and Hanriot will be his team mate. Hemyer and Hanriot were second and third in this year's Grand Prix and Erie, the driver of the third Benz car, in the race tomorrow, was a seventh in the Grand Prix contest.  
**Light Car Race Starts**  
Savannah, Ga., Nov. 25.—Car No. 1, French S. P. O., was sent away at 11 a. m. today and the first international light car race over a course measuring 195 miles was on.  
The Italian car, Lanca won the race with a Buick car second. The Lanca averaged 52 miles an hour the entire distance. The Buick car, with master driving, met with an accident at the finish and the mechanic was badly hurt.

# DEDICATION OF STATUE OF GENERAL PHIL SHERIDAN

President Roosevelt And Cabinet Were Pres-  
ent At The Unveiling Ceremony.

Washington, D. C., Nov. 25.—The national capital paused briefly in its grind of official business this afternoon while tribute was paid to Philip H. Sheridan, soldier and patriot, when the gorgeous statue of theashing cavalry leader was unveiled in the presence of the President, his cabinet and many prominent guests. The statue is placed in Sheridan Circle, at the intersection of Massachusetts avenue and Twenty-third street, where a vast crowd of people congregated to witness the unveiling ceremony. President Roosevelt was escorted from the White House to the place of the unveiling by a considerable number of troops.  
Lieutenant Sheridan, son of General Sheridan, had the honor of pulling the cord that loosed the drapery of flags concealing the monument. As the statue came into full view its magnificence was strikingly presented to the people. A mighty cheer was heard, while the military band present played the national anthem. The unveiling was the culmination of the program of addresses in which noted

## BRING DOWN DEER IN NORTHERN WOODS

Edgerton Hunting Parties Were Lucky  
In Trips Through Northern  
Wisconsin.  
[SPECIAL TO THE GAZETTE.]  
Edgerton, Nov. 25.—Clarence Shannon, W. A. Bentley, Dick Miller and Homer Volght returned Tuesday from Saynor, Wis., where they have been for the past ten days hunting deer. Mr. Shannon brought down two beaver, Mr. Miller, two, and Mr. Bentley, one each. L. C. Whitteit and P. C. Brown also returned from deer hunting near Rice Lake this morning with three fine specimens. They are all being displayed at Peters' meat market, where the many friends of these gentlemen will be treated to delicious roasts and steaks as long as they last.

[BY ASSOCIATED PRESS.]  
Springfield, Ill., Nov. 25.—Governor Deneen today issued a proclamation prohibiting the importation into Illinois of any livestock from Michigan owing to the prevalence of the foot and mouth diseases.

## DEMANDS BOND OF ROYAL CLOTHING CO.

Mayor Heddles Signed Notification  
and Directed Chief Appley to  
Serve It Today.  
[BY ASSOCIATED PRESS.]  
Springfield, Ill., Nov. 25.—Having ascertained that no legal liability will be incurred or injustice done and that circumstances seem to warrant the precaution, Mayor Heddles today directed City Attorney Maxfield to draw up a formal notification to the Royal Clothing Co. to present a good and sufficient \$500 bond within 24 hours, as a guarantee either of their good faith as permanent merchants or the payment of the \$10 a day license fee. According to the provisions of the ordinance, the matter was entirely within the discretion of the Mayor. He acted with deliberation because he was unwilling to do anything which might be construed as tending to discourage new enterprise in this locality. The notification was served on the merchant this concern by Chief Appley.

## HAYTI REBELS GAIN

Capture and Execute Minister of the Interior.

HAVE TOWNS AND A GUNBOAT

People of Port au Prince Made Furious by Report of the Killing of Gen. Leconte Who Was Leading a Government Force.

Port au Prince, Nov. 25.—Despite the efforts of President Nord Alexis, the revolt headed by Gen. Simon is spreading and the rebels are gaining ground daily.

The towns of Aquin and Jeremie have both declared against the government.

The gunboat Croyant, which has fallen into the hands of the rebels, encountered the gunboat Contonair off Jeremie, and shots were exchanged.

Gen. Leconte, the minister of the interior, who went out at the head of a government force against the rebels, has been executed and late advices seem to confirm the report.

The rumor is current here that he has been executed.

Previous Revolt Fierce.

The present revolt of the people of Hayti followed that of several months ago, when many nations became anxious over the safety of foreign residents at Port-au-Prince and several of the countries sent gunboats to the scene to care for their countrymen, who otherwise would have been left unprotected at the hands of the government and rebel forces.

News Creates Furore.

The news that the minister of interior had met his death at the hands of the revolutionists created almost a panic in this city, in which most of the population supports President Alexis. Great crowds gathered on the street corners and vowed vengeance upon the rebels for their act. No acts of violence other than occasional pistol shots at suspected members of the opposition force marked the solemnity of the capital city, but in other parts of the realm panic prevailed, according to incoming reports.

CASTRO LEAVES VENEZUELA.

Sails for Bordeaux Where Operation Will Be Performed.

Caracas, via Villomstad, Nov. 25.—President Castro sailed Monday from La Guaira on the steamer Guadalupe for Bordeaux, for the purpose of undergoing an operation at the hands of a skilled specialist at Berlin. Reports which were made recently to have Dr. Israel of Berlin come to Caracas for the purpose of performing the operation failed and nothing remained but for the president to undertake a European voyage.

The operation will be performed immediately on President Castro's arrival at Bordeaux, where Dr. Israel will be in waiting. Should it be successful the president will visit Paris, where he will rest for a few days only, as he wishes to return to Caracas as early as a date as possible.

The greatest excitement prevails in Caracas and political intrigues already have commenced. It is thought that the departure of President Castro may open the road for the settlement of the Holland, American and French disputes. Vicente Gomez, the vice-president, will assume the presidency.

DEATH LIST EXAGGERATED.

Victims of Arkansas Tornado May Not Number Over 21.

Little Rock, Ark., Nov. 25.—Latest reports from western Arkansas show that although first reports of the number killed in Monday's tornado were exaggerated, the property damage will be greater than expected.

Reports so far give names of four known dead and about 15 known injured. Seventeen other deaths are reported, but names are not given.

Anarchist McQueen Dead.

Patterson, N. J., Nov. 25.—William McQueen, the anarchist, who was convicted of having incited the silk dyers' riot in Patterson in June, 1902, is dead at Leeds, England, according to news received here Tuesday. Death was due to tuberculosis. McQueen was an Englishman. He came to Patterson during the strike of 1902, and in a fiery speech at Belmont park aroused his hearers that a riot resulted.

Wellman Sues for Libel.

Paris, Nov. 25.—Walter Wellman has filed a libel suit for \$100,000 and rectification against the sporting review La Vie Au Grand Air, because of the publication of an article characterizing Wellman's expedition to the north pole as "an American bluff, designed for personal profit and carried out under the cover of impossible scientific conditions."

Kills Two Children and Herself.

Ryanston, Wyo., Nov. 25.—Mrs. Michael Marilady, wife of a ranchman living near this place, killed herself and two children and attempted to murder three other children with poisoned with strychnine. The act is believed to have been the result of domestic unhappiness.

## FRENZIED FINANCE OR A "CON" GAME?

Harry Lee of Freeport, Promoter of a Dance at Assembly Hall, Was Arrested Last Evening.

Harry Lee of Freeport, promoter of a dance advertised to be given by the "Western Dancing Association" and which attracted 25 couples to Assembly hall last evening, was promoted by Officer Mason from carrying out his evident intention of boarding an outgoing interurban car at eleven o'clock last evening and leaving his guests in the lurch.

There was some dissatisfaction earlier in the evening when Lee announced that his orchestra had been delayed in Detroit but would be here soon and returned three colored troubadours to dispense some rag-time during the interim. In the meantime various creditors had appeared upon the scene and the situation appeared ominous, whether the orchestra came or not. For the receipts, at 25 cents a ticket, had amounted to but seven or eight dollars, while the promoter had run up a printing bill of \$25, a board bill of \$12 at the Park hotel, and was expected to pay Manager Fred Baker \$15 for the use of the hall.

"I expected a big crowd but it didn't show up," said Lee when interviewed in his cell at the city lock-up this morning. "I have no idea why the orchestra failed to appear. The boys at Freeport agreed to come whenever I should arrange a date and I notified them by telegraph." The records at the telephone station substantiate this latter statement but they also show that the party to whom the message was addressed refused to receive it.

Lee was permitted this morning to telephone to his brother, Fred Lee, who is employed at the Fairbanks-Morse plant in Detroit. He told the latter that he was in trouble and asked him to come up and give him a lift. The brother said that he could not get home until evening. If he arrives tonight and is disposed to lend a helping hand the case may be settled without resort to the courts.

The prisoner is about 28 years of age and wears a gray sweater vest. He says that his parents are well to do and moved from Freeport to Lincoln, Neb., about nine years ago. He had been stopping at the Park hotel for 10 days.

## RICHARD FLEEK AND MISS ELLA RUDOLPH

Were Quietly Wedded by Rev. R. C. Denison in Chicago Today—A Surprise to Friends.

Miss Ella A. Rudolph and Richard D. Fleek were quietly wedded in Chicago today by the Rev. Robert C. Denison and the announcement came as a complete surprise to all except the parents of the contracting parties. The bride is the eldest daughter of Ex-Alderman and Mrs. Paul Rudolph and was graduated from the Janesville high school in the class of 1899. The groom is the junior member of the Fleek jewelry firm and one of the most popular and successful of the younger Janesville business men. Both have hosts of friends who will join in wishing them only happiness along the journey which they are to travel together. They will be at home to their friends at 257 Rayline street after December 10.

EVANSVILLE'S FAMOUS JOKE AND THE JACKASS CASE UP FOR TRIAL.

Unless Some Settlement Is Made This Afternoon Jury Will Be Drawn For State vs. Cunningham Trial.

"Tom, why don't you speak to your brother?" is the blithe inquiry which eighteen year old Mark Webb is alleged to have made of Thomas Cunningham, a worker at the Evansville race track, when a small jackass charged to reel off a ripping "how-how" salutation to primary election day. The next instant there was a swishing sound followed by a dull thump as a wild-fire swung through the air and smote the torso of the youthful joker. The answer to a rather impudent question is said to have broken two ribs. Mrs. Charles Webb, the boy's mother, was absent from the state at the time and the trial of the action against Cunningham for assault with intent to do great bodily injury was adjourned. It was to come up for trial this afternoon and unless a settlement should be reached, it was anticipated that a jury would be drawn and the prosecution commenced Friday morning.

PENITENTIARY FOR YEAR AND A HALF

Otto Parmeter, Reputed Ring-Leader in Burglary Job at Edgerton, Captured at Harvard Yesterday.

Sheriff I. U. Fisher received advice yesterday that Otto Parmeter, who was implicated with Edward Reynolds in the burglarizing of William Harrett's saloon in Edgerton on the night of Oct. 27, had been seen in Harvard, Ill. The officer immediately proceeded to the Illinois city and within two hours and a half had the 26 year old offender under arrest. In municipal court this morning Parmeter waived examination and entered a plea of guilty. He said that he and Reynolds were intoxicated when they broke into Harrett's place. Asked how he came to do such a thing, Parmeter declared that they wanted some money and thought they might get it there. They cut through the panel of the back door; broke into the cash register; divided the \$3 or \$7 they found there between them; and afterwards hid the cash back of a livery stable. Friends of Reynolds claim that Parmeter is "the bad company" who has been the cause of the former's undoing. He manifested no remorse and received the announcement of his sentence of a year and a half in state's prison with indifference. It is said that he is unmarried but has a mother living in Edgerton. Reynolds was committed to state's prison for a year Monday and for stealing \$8.50 the two young men will jointly work for the state two years and a half.

PETER VAN VLISSENSEN Most Colossal Forger in Criminal History of the West.

Chicago, Nov. 25.—One Monday morning Peter Van Vlisengen was a respected citizen, living in luxury and courted by society people and financiers. Wednesday he was on his way to the penitentiary convicted of forgeries to the extent of \$700,000, and tomorrow he eats his dinner as a convict.

Such, in brief, is the record of one of Chicago's most prominent real estate men.

Two friends became suspicious of certain papers and started an investigation. When faced with the facts he admitted all and was speedily sentenced.

A deliberate plan to swindle, extending over a period of nearly 20 years, and involving frauds of \$700,000, was calmly admitted by the prisoner. He described in detail the plan by which he operated and said without evident feeling that his closest friends had been his heaviest victims.

The forgeries were accomplished by the tracing method, according to the testimony of the prisoner, and he had a unique plan for making his work perfect and at the same time easy.

"I had a hole in my office table," he said on the witness stand. "Over this aperture I had a piece of glass laid and just beneath it there was an incandescent light. When I was making these tracings I did so at night and alone. I turned out all the other lights, turned on the light under the table, laid the genuine document over the glass, fitted another form just above it, and traced every signature and every figure on it. Therefore the work was perfect in every detail. Not only that, but he has been indicted on other forgeries—so if he is pardoned he will be re-arrested and made to serve out his full term."

## WOMEN JUMP AT OPPORTUNITY

That the ladies of this town know a good thing when they see it will be proven Friday at the opening of the second exhibit and sale of Ostreich plumes under the direction of the Milwaukee branch of the Ostreich Plume Co. This company sells ostrich plumes "direct from the Ostreich Farm to you," and this time, as on their last visit, are offering some sensational bargains which our enterprising buyers are quick to take advantage of.

Friday they will take the exhibit by storm, and the balance of the exhibit promises to be just as exciting as the opening day.

The one dollar plume values cause a great deal of comment, no one understanding how a duffy plume, 15 inches long, black and all colors, can be sold for one dollar. See advertisement in this paper, this issue, for particulars of sale.

## On Buying a Watch

There are two important things to think about in buying a watch—one is the make of the watch—and the other is the jeweler who sells it to you.

The right watch for you is worth all it costs. The right jeweler for you is the one who has the best make of watch and who will take a personal interest—advising you honestly as to the selection of the case, movement, etc., best suited to your needs.

You want all you pay for. The man who gets less is the one who shops around with the one idea of price in his mind. He always finds someone to sell him a slightly inferior watch for a slightly inferior price. You will always find the right watch at the right price at

## FIGURES OF THE RECENT ELECTION

RESULTS AS SHOWN BY THE  
OFFICIAL RETURNS.

### Taft's Majority Was 81,969

Vote Very Little Larger Than That  
Cast in 1904—Gov. Davidson Fell  
Behind the Head of  
the Ticket.

Madison, Nov. 25.—William Howard Taft carried Wisconsin by a plurality of 81,969. The vote was but a little larger than the vote for president in 1904; about 5,000. Taft received 31,040 less than did Roosevelt in 1904, while Bryan received 42,499 more votes than did Parker in 1904. Taft's heaviest loss, over 4,000 votes, was in Milwaukee county. Next comes Dane, where he lost in round numbers 1,700 votes.

Official returns from state officers show that Gov. Davidson's plurality was 77,110 or 4,886 less than the plurality of Mr. Taft.

The pluralities of the other state officials were: Dahl, 88,699; Frear, 88,096; Gilbert, 88,227; Strango, 82,864; Heedle, 81,804. It will be seen that the governor's plurality was exceeded by 11,580 in the case of Secretary Frear down to 4,691 in the case of Insurance Commissioner Heedle.

Mr. Aylward, Democratic candidate for governor, received 8,876 more votes than the lowest man on his ticket, and 3,621 more than the next highest man on the ticket, which was William Guillaume, candidate for insurance commissioner. With these two exceptions the vote for the Democratic state officers was but little over 157,000. While Gov. Davidson ran 58,155 votes behind Taft he had more votes than Taft in 19 counties in the state. The counties which the governor carried over Taft were: Adams, Jayfield, Harrison, Burnett, Door, Forest, Jackson, Juneau, Kenosha, Kewaunee, La Crosse, Lafayette, Polk, Rusk, Sawyer, Shawano, Vernon, Walworth and Winnebago. The counties where the vote was the same were: Brown, Florence, Monroe and Vilas. Davidson's losses, as compared with Taft's vote, were heaviest in Milwaukee, Dodge and Racine counties. Trempealeau county, where the governor made a hot campaign for T. T. Twoomey, gave him 127 votes less than it gave for Taft, which, in view of the feeling aroused, is somewhat remarkable. Crawford, the governor's home county, gave him 25 votes less than it gave Taft.

On the Democratic side the table shows that Aylward ran but 759 votes behind Bryan in the state, and ran away ahead of any of the other candidates on the state ticket.

The vote for the Social Democrat and Prohibition candidates seems to have followed closely the vote for president. Brown, the Social Democratic candidate for governor, ran 465 votes ahead of Debs, while Cox, the Prohibition candidate for governor, ran a little over 100 behind Chaffin, the Prohibition candidate of the party.

The official figures are as follows:

For President.  
Taft (Rep.).....218,673  
Bryan (Dem.).....166,797  
Debs (Soc. Dem.).....28,146  
Chaffin (Prohib.).....11,579  
Taft's plurality, 81,969.  
Taft's majority, 42,241.

For Governor.  
Davidson (Rep.).....213,058  
Aylward (Dem.).....165,918  
Brown (Soc. Dem.).....28,611  
Cox (Prohib.).....11,643  
Davidson's plurality, 77,110.

For Lieutenant Governor.  
Strango (Rep.).....213,456  
Williams (Dem.).....159,094  
Wright (Soc. Dem.).....28,170  
Forward (Prohib.).....11,039  
Strango's plurality, 85,462.

For Secretary of State.  
Frear (Rep.).....214,452  
Schutz (Dem.).....157,456  
Irwin (Soc. Dem.).....28,077  
Park (Prohib.).....10,775  
Frear's plurality, 85,996.

For State Treasurer.  
Dahl (Rep.).....215,761  
Keehn (Dem.).....157,074  
Parks (Soc. Dem.).....28,585  
Ager (Prohib.).....11,124  
Dahl's plurality, 88,690.

For Attorney General.

## MUTINOUS TROOPS AT NANKING ARE VIOLENT

Serious Street Fighting in Chinese  
City—Foreigners Take Refuge  
on British Gunboat.

Pekin, Nov. 25.—The situation at Nanking, where a mutiny on the part of the Chinese troops broke out, is serious. There has been fighting in the streets of the city, and a portion of the foreign residents have taken refuge on board a British gunboat. Others of the foreigners elected to remain on shore.

This information was conveyed to Pekin Tuesday in official telegrams to the legations here. There is also a German gunboat off the city. The American residents asked for a gunboat for their protection, but in view of the assurances given by Yuan Shi Kai, one of the grand councillors, that the situation was quiet and the incident of mutiny closed, this request was not forwarded. The information coming in here contradicts the representations being made by the foreign board, and the legations have requested the board to supply them with further news.

The war board announced Tuesday that it had 3,000 troops at Nanking, pending the conclusion of the maneuver.

The new government at Nanking is firmly established and foreigners there do not entertain fears of an insurrection. The troops, however, are being closely watched, for it is feared that they may follow the example of the battery of artillery and the squadron of cavalry that hung out the banner of revolt.

The native press intimates that the trouble in Nanking can be traced to opposition to the missionaries, but this charge is without substantiation.

## SWIFT JUSTICE GIVEN TO NEGRO MURDERERS

Three Are Captured, Tried, Condemned,  
and Hanged by Mob at Tip-  
tonville, Tenn.

Union City, Tenn., Nov. 25.—Three negroes who were arrested Tuesday morning for the murder of special deputy Sheriff Richard Burruss and the fatal shooting of Deputy John Hall, were hanged late in the afternoon by a mob at Tiptonville, on Reelfoot lake. The negroes were Marshall Stineback, Edward Stineback and Jim Stineback.

These brothers created a disturbance at a religious meeting near Tiptonville Saturday night. When the two officers attempted to arrest them a fight ensued in which the officer's were shot.

By daylight Sunday morning a posse of citizens from Tiptonville was in pursuit of the negroes, but they successfully eluded the white men until eight o'clock Tuesday morning, when they were surrounded and captured in a swamp near the village of Ridgely, and landed in jail at Tiptonville. The negroes, when arrested, had two guns but had run out of ammunition.

The news of the capture spread rapidly and men began arriving by every road, and soon the jail was surrounded by a mob which had no hesitancy in threatening a lynching.

Justice Davis agreed to open his court at five o'clock, summon a jury of 12 men and allow the negroes, after all evidence that could be adduced was heard, to be duly sentenced to death.

Meanwhile Gov. Patterson was advised by telephone of the situation and ordered a company of militia in this city to proceed with all haste and if possible, secure the negroes and conduct them to a place of safety. The troops were started at once, but failed to arrive in time to prevent lynching. At the trial all of the evidence of those who had seen the killing was heard and in a short time the case was given the jury, who in a few minutes returned a verdict of guilty, fixing the penalty at death.

The sentence had barely been passed on the three negroes when the mob, with a whoop and a yell, swarmed into the courtroom and seizing the prisoners, rushed them to a large tree, near the edge of town, and hanged them.

## ARCHBOLD IS HEARD

Tells of Difficulties Met by  
Standard Oil.

### RECALLS INDUSTRIAL FIGHTS

Rockefeller, Questioned About Formation of the Trust, Admits His Enormous Holdings of Stock—Attempt to Serve Subpoena on Him Is Foiled.

New York, Nov. 25.—Late Tuesday afternoon, after the cross-examination of John D. Rockefeller, in the government's suit to dissolve the Standard Oil trust, had been concluded, John D. Archbold, vice-president of the corporation, was put on the witness stand. Mr. Archbold beamed with satisfaction in telling of the Standard's early history. His clear blue eyes twinkled when he told of the industrial fights, saying that he kept careful watch on his competitor and then "tried to beat him."

After telling of his earlier experience in the oil industry, Mr. Archbold said the introduction of refined oil for domestic use, was most difficult because of opposition of the public as a result of its odor and burning qualities. From 1870 to 1875 the multiplication of refineries brought about a surplus which caused wide fluctuations of prices of oil. There were no systems of reserve or storage, he added. Speculation in oil stocks was rampant, and even the price of oil was speculated in, which demoralized the business and made it hazardous for the manufacturer. The management of gathering lines was very bad, said Mr. Archbold.

Tells of Stock Ownership.  
Mr. Rockefeller testified that at the time of the organization of the Standard Oil Company of New Jersey in 1889 he owned 256,851 shares of its stock out of a total issue of 982,383 shares.

For the first time since he has been on the witness stand at this hearing Mr. Rockefeller was a little late in arriving Tuesday. Frank H. Kellogg, the government's special assistant attorney-general, resumed his cross-examination, taking up the organization of the Standard Oil Company of New Jersey where he ended it Monday. Mr. Kellogg read what he said was a list of stocks obtained by that company in 1889 for which it had exchanged its own shares. He said that 412,797 out of a total of 982,383 shares first issued were in the name of John D. Rockefeller.

Mr. Rockefeller said he did not own so much stock as that but did own 256,851 shares of the Standard Oil Company of New Jersey at that time and that he accepted the other stock and distributed it to the proper stockholders. He added that frequently holders of certificates of the Standard Oil trust exchanged them for stock in the Standard Oil Company of New Jersey rather than accept shares of the various subsidiary companies.

"I turned over my trust certificates to the liquidating trustees," said Mr. Rockefeller, "and obtained a paper on which I secured shares in the constituent companies, which I turned in to the Standard Oil Company of New Jersey."

Mr. Rockefeller declared that he never acted as an attorney for any one in this process of liquidation.

Calls Past Not Wholly Secret.  
"You were trying to give the impression that the large number of companies you had acquired an interest in were not controlled by the Standard Oil Company of Ohio?"

"I tried to give the status at that time."

Mr. Kellogg asked the witness if he made it known to any one at that time that he had an interest in the companies included in the trust agreement of 1879, and if it was not a fact that this agreement was kept secret while he was combining the companies.

"I cannot say, but I think it must have been known to a number of people outside of those who signed it," replied Mr. Rockefeller.

Process Server Foiled.

There was a lively scene in the corridor of the customs house as Mr. Rockefeller was leaving the building at the conclusion of his testimony. A process server tried to thrust a subpoena into the hands of the Standard Oil head, but a law clerk accompanying Mr. Rockefeller saw his purpose and before the subpoena could be served he pushed Mr. Rockefeller into an elevator. The elevator shot downward, carrying Mr. Rockefeller out of the man's reach.

## TAWNEY CALLS HIS COMMITTEE.

Task of Cutting Down Estimates Will  
Begin at Once.

Washington, Nov. 25.—With the prospect of the second half of a two-billion-dollar congress looming up before it, the house committee on appropriations will begin next Monday its work of attempting to cut down estimates, submitted by the secretary of the treasury for running the gov-

Congressman Tawney.

ernment during the coming fiscal year. The first thing Chairman Tawney did when he arrived at his committee room Tuesday was to issue a call for the committee to meet.

The legislative, executive and judicial appropriation bill will be taken up first. The estimates are about \$2,000,000, and very very little from the current appropriation. Chairman Tawney plans to conclude the hearing on this bill before congress convenes December 7, and to have the measure passed by the house before the Christmas holidays.

## PEOPLE WILL RULE

Tariff Will Be Honestly Re-  
vised, Asserts Cannon.

### SAYS HE IS NOT DICTATING

Republican Congressmen, the Speaker Believes, Can Be Relied on to Carry Out the Pledge of the Party Without Error.

Washington, Nov. 25.—Speaker Cannon arrived here from Illinois late Tuesday afternoon and at once told the newspaper men who crowded around him that he was certain that the tariff would be honestly revised in accordance with the vote of the American people. He added that there was no need at present to "fret" about the choice of a speaker for the Sixty-first congress. Mr. Cannon was in good health and spirits.

### Not Trying to Dictate.

Later he issued a statement in which he declared that he was not attempting to dictate to the house, and that through the system of election of members the people were reasonably certain of having their views enacted into law. Citing an example of hasty action leading to a misinterpretation of public sentiment in regard to a tariff bill, he expressed an opinion that there would be no mistake made next summer in the revision of the tariff.

Speaker Cannon's statement in part was as follows:

"Of course there will be an honest revision of the tariff. We made the campaign on that issue, and every Republican member was elected with that in view. Every one of those Republicans, without an exception, will, I believe, strive to the best of his intelligence and ability to attain the tariff results desired by the people who elected him. All will not have the same views and each one cannot have his own way altogether.

### Thinks No Mistake Is Likely.

"The Republicans made no mistake when they elected the Dingley law, as the long life—as the lives of tariff laws go—of that law shows. I believe they will make no mistakes in the bill which they will enact next summer with the concurrence of the senate and the president.

"There is one thing of which you may be sure. Those representatives will do their very best to perform what the people want, for they must go before the people in 1910 and account for their acts. A senator accounts for himself once in six years, a president once in four years; but the representative accounts once in two years. The speaker of the house has a double accounting, to his constituents in his own district, and to his associates in the house who elect him. No representatives, and especially no speaker, will fall to do everything within his power to carry out the well-considered, constitutionally-expressed will of the majority of the people.

"This is why I believe that we shall get the sort of tariff revision the people voted for. I do not pretend to prophesy or dictate. It is and should be beyond any man's power to dictate to the house of representatives. I merely speak from long experience and the teachings of what I believe to be reason and common sense."

THE CITY'S POOR**Thanks to the Devoted and Unselfish  
Labors of the Ladies Associated  
in Charity.

It was only breadlessness—not indifference—which brought to a single peck of potatoes in answer to the Associated Charities' original call for Thanksgiving day donations. Already there are indications that the kind-hearted people of this city are going to make up for the lack of the evening hour, for this evening in that a good dinner will be provided for every poor family whose needs are known to the ladies engaged in carrying on this noble work. The organization is in close touch with nearly all, if not all, of the city's unfortunate and no one need have the enjoyment of his dinner marred tomorrow by the thought that there is hunger and suffering within a stone's throw. The Mary Kimball Mission and the Salvation Army will not distribute baskets to the poor at this time, but are planning for big feasts on Christmas Day. The prisoners at the jail will be as well treated as in former years and a special dinner will be provided for them.

**GAZETTE FORCE TO  
OBSERVE HOLIDAY**Call to Thanksgiving Feast Cannot  
Be Disregarded and There Will  
Be No Issue of Paper Tomorrow.

The Gazette hopes that all of its readers may appreciate and enjoy to the fullest both the spiritual and material benefits of Thanksgiving. The call to "turkey" cannot be disregarded and there will be no issue of the paper on this holiday. If a sentiment is permitted, James Whitcomb Riley's little poem may be offered in paraphrase:

Bring unto the sorrowing  
All release from pain;  
Let the lips of laughter  
Overflow again;  
And with all the needy  
Oh, divide we pray—  
This vast treasure of content  
That is ours today.

**READ SELECTION AT  
OPENING EXERCISES**Miss Freda Keys Gave Reading—  
Class Game Postponed on  
Account of Weather.

Miss Freda Keys of the Ginnick School of Oratory of Northwestern University treated the pupils of the high school to a reading this morning at the opening exercises of the school. The selection was chosen by Miss Keys from Kate Douglas Wiggin's "Rebecca of Sunnybrook Farm."

Owing to the bad weather of the past few days the game between the senior and junior class teams has been postponed until the field is drier.

There will be no school in the grade or high schools tomorrow and Friday. In the grade schools short programs will be given today appropriate to Thanksgiving. These will consist of recitations and songs.

Prof. Vlyman, who has been ill with appendicitis, expects to go from the hospital directly to his home in the east, on next Monday. He will remain at home and rest until after the Christmas recess, when he will return to resume his work at the high school.

**WON THE PENTATHLON  
WITH ELEVEN POINTS**Victor Will Hold Medal for the Com-  
ing Month as Result of Last  
Night's Meet.

At the Pentathlon athletic meet held last evening at the Y. M. C. A. building, Victor Reed was the winner with a total of eleven points. Reed will accordingly hold the medal donated by O. H. Pyper for the coming month when the winner of the next contest will hold it for a month.

The results were as follows, apparatus work, Victor Reed, first; Sterling Campbell, second; Francis Green, third; Putnam-Victor Reed, first; Frank Chas., second; Robert Chase, third; record—21 times. Hop, Chase and Jump—Victor Reed, first; Francis Green, second; Randal, third; distance—25 feet 2 inches. High Jump—Vernie Torrey, first; Frank Chas., second; Francis Green, third.

Height—5 feet 5 inches. This record of 5 feet 5 inches ranks well with the state interscholastic record for indoor meets.

Tomorrow morning at nine o'clock the cross-country run will start. The course will be around the Big Horn State Conference.

Two Janesville people will speak at the state conference to be held at Fond du Lac this month. C. V. Hubbard of Japan, who has been making his home in Janesville for the past year, is on the program and Sterling Campbell will respond to the address of welcome.

17 YEAR OLD HAZEL MAINE.

Chicago, Ill.—One of the worst examples of the white slave trade in Chicago has just come to light. Seventeen-year-old Hazel Maine, a beautiful girl who has spent her childhood days in Milwaukee in the midst of pleasures such as other girls enjoy, was kidnapped recently. No trace of the girl could be found in spite of the efforts of friends and relatives. She has just made herself known in this city, after escaping from one of the worst dives in the love districts.

Miss Maine's story is brief but so pitiful. It seems that she was kidnapped and chloroformed in Milwaukee and was invisible until she awoke in a strange house in a strange city. She

soon gathered from the remarks of her newly made friends that she was the victim of the white slave traffic and she determined to escape at any cost.

In some way she secured a suit of men's clothes and disguised in these, crept out unobserved during the evening and before any harm had come to her in any way.

This picture shows Miss Maine just after she had made her successful escape in the disguise to which she can credit her escape. She was very excited and nervous and wanted to get back to her home and family in Milwaukee.

by which they were fixed for the first time in the history of the state; also bills to increase the taxes to be paid by telegraph, telephone, sleeping car, insurance and other corporations. During the legislative session of 1895, Mr. Davidson introduced and secured the passage of a law creating the office of state bank examiner, which has led up to the present efficient and highly satisfactory system of bank supervision, securing as it does the confidence of depositors, thus placing the business of banking on a higher and safer plane, and today Wisconsin's banking law is being patterned after in many of the other states.

Mr. Davidson was elected state treasurer in 1898 and re-elected in 1900, bringing to that office the same careful business methods applied in his private affairs. The interest on public funds turned into the state treasury during his tenure of office was \$101,000, or threefold greater than under previous administrations and of the \$3,000,000 public funds invested by him as state treasurer, there was not a dollar lost to the state.

As presiding officer of the senate, Lieutenant Governor Davidson was as fair and courteous as he personally is genial and popular with his associates. The resignation of Governor La Follette to accept the office of United States senator, made him governor. In the primary proceeding the next election he was chosen by an overwhelming majority to succeed himself, carrying all but three counties in the state against his opponent. In the campaign following he was elected to succeed himself by the largest majority ever received by a governor in a non-presidential year.

He is a man of vigorous intellect, honest to the core, one entirely in sympathy with the republican policy as outlined by President Roosevelt and thoroughly in favor of restoring to the people the rights which in past years have been taken from them by the usurpation of the great corporations, creatures of the people and which he does not hesitate to hold, should be brought under proper control, instead of being allowed to dominate.

While a man of strong convictions and always ready to stand for what he believes is right, he is not so radical but what in every moment he displays coolness of judgment, a breadth of vision, a keenness of insight and fairness that makes him a safe and able man for the office he has been called upon to fill.

Professor Thom. R. Lounsbury, Yale's New Authority in Behalf of Better English.

New Haven, Conn.—When the prep school man comes up for his Yale exams next spring he will find a new ruling which will effect many who desire entrance.

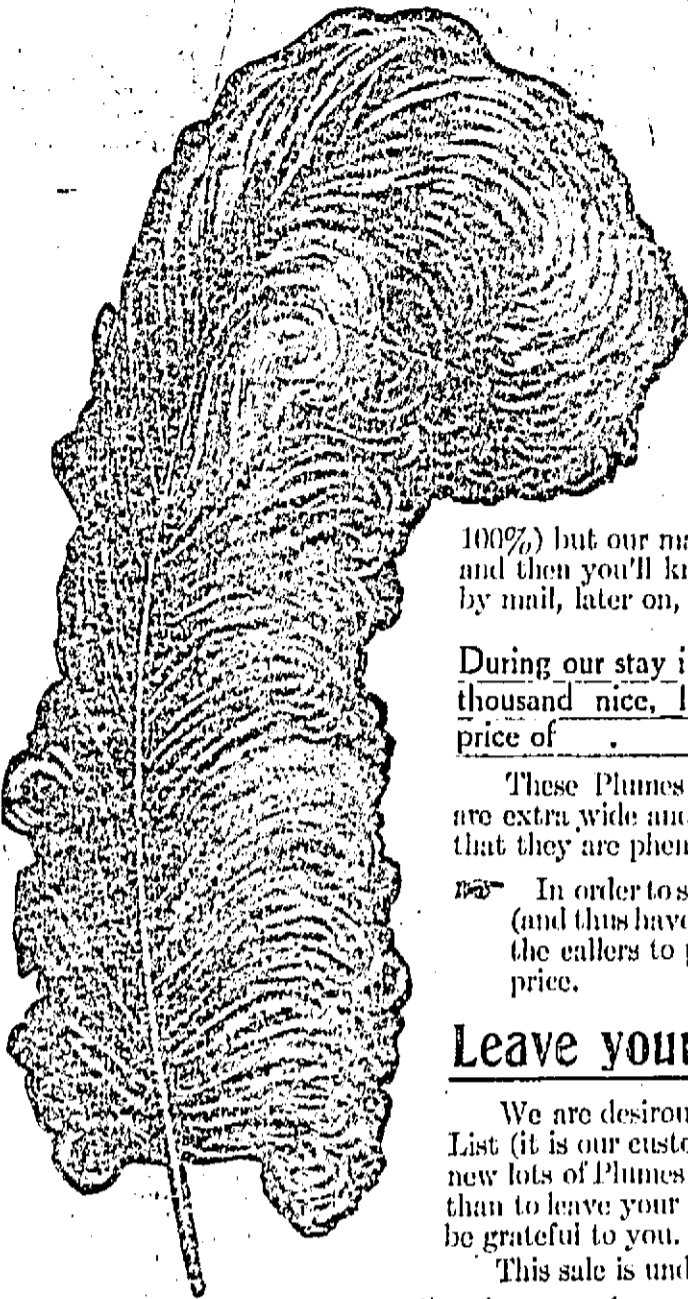

All examination papers must be written in good English. Such is the word which has gone out to the heads of the departments, and while this does not affect the majority it does affect many. Professor Lounsbury who has been teaching English for over fifty years and who is well known through his magazine articles and books, is perhaps more than any other man the one to be credited with this new movement. And this new movement is a great advance towards better preparation in English on the part of the student. When seen at his room today by a representative of the current, Professor Lounsbury was asked if he considered that the speaking of correct English was degenerating rather than advancing. He promptly replied in the negative and stated that in the last thirty years there had been a wonderful advance toward better English. Before the war the study of English was considered entirely unnecessary and unimportant to a good education but in late years it has become one of the most important branches in a college curriculum.

The foreign born youth who comes to America and studies English is really better prepared to speak our language correctly than many of the native born sons owing to the fact that he has no incorrect English to overcome. A boy who has continually heard during his youth the phrase, "I done it," will find that it requires a great effort every time he corrects this and uses the word "did" instead of "done." On the other hand, the foreign boy learns this correctly the first time and never has any trouble. Most of the difficulty is along the line of poor home training.

English should be made one of the most interesting subjects in the college curriculum. It is hardly conceivable that the modern boy should dislike such books as "Yankee," which is a part of the required reading, but it is a fact that they do, and to overcome this tendency is the hardest problem before the English teacher. What effect the new ruling will have remains to be seen but the Yale authorities are sanguine that the results will be better English.

Chief of Them All. "He tried to flatter me, but I'm proud to say he couldn't." "No? You're a greater flatterer than he is then, aren't you?" "How do you mean?" "You flatter yourself that you can't be flattered." — Catholic Standard and Times.

Here's your chance to have the selling plan of "Direct from the Ostrich Farm to You" demonstrated to you and you'll forever after be convinced that it is

**The Only Way for You to Buy Ostrich Plumes.**

In order to make it possible for you to get acquainted with this modern selling plan we have decided to exhibit in your city—we'll be ready to sell, at our regular price (which means a saving to you of 50% to 100%) but our main object is to have you see for yourself and then you'll know our goods and be able to send us orders by mail, later on, when in need of anything in our line.

During our stay in your city we will place on sale several thousand nice, long, fluffy Plumes, at the ridiculously low price of

These Plumes come in black and colors; are 15 inches in length; are extra wide and you'll bear out the statement when you see them that they are phenomenal bargains.

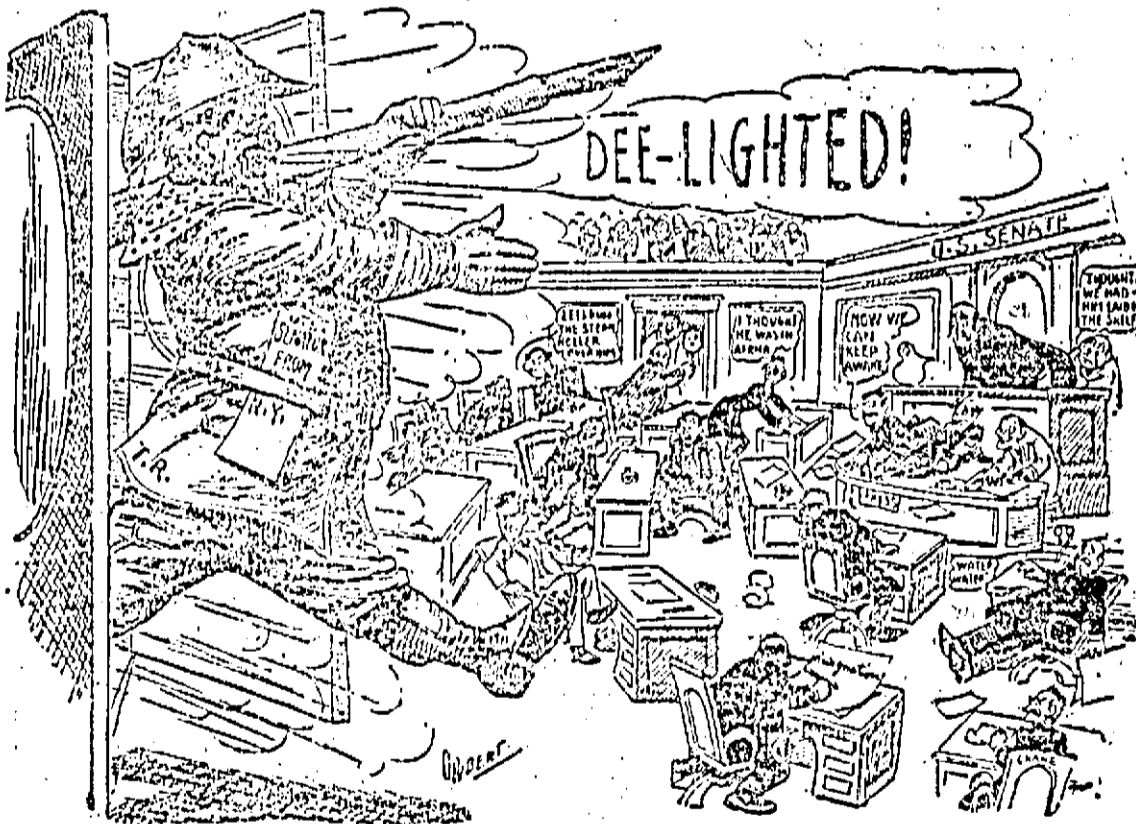

In order to supply as many of the people visiting us as possible (and thus have our offerings widely distributed) we must restrict the callers to purchasing not more than two plumes at this price.

**Leave your Name and Address with Us.**

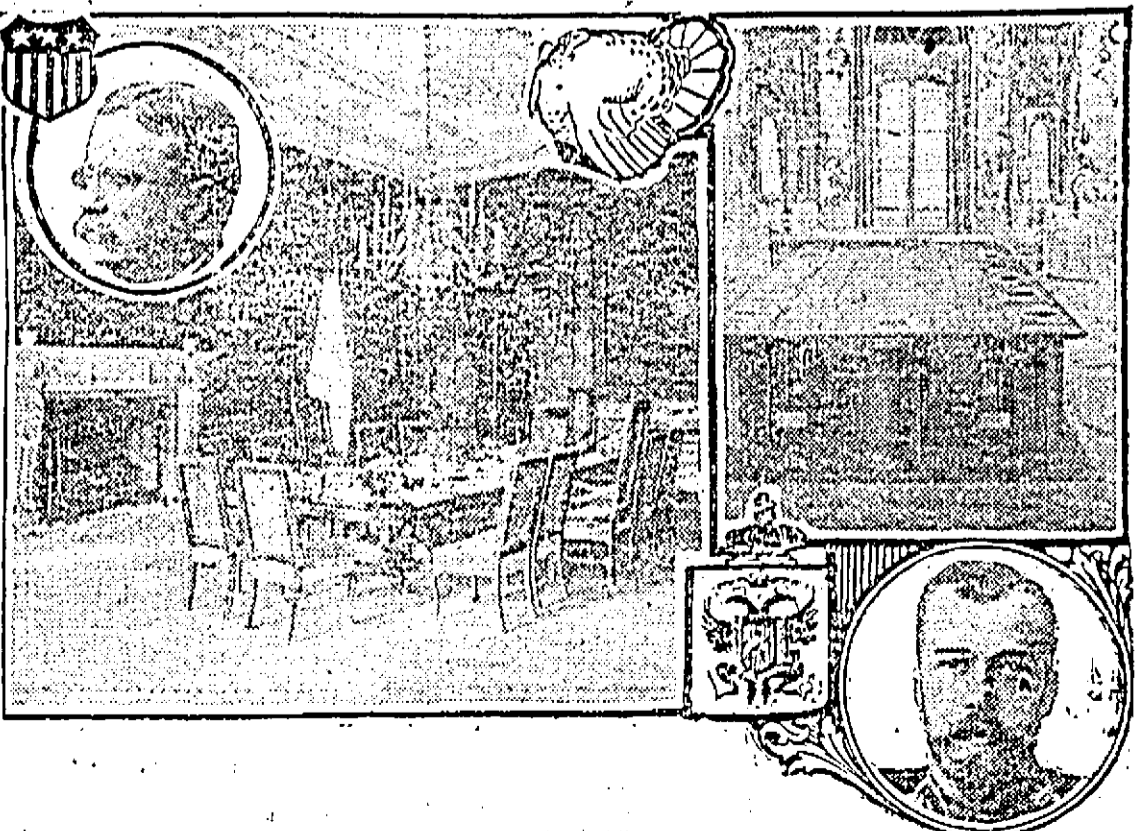

We are desirous of adding 25,000 new names to our Mailing List (it is our custom to inform interested people about arrivals of new lots of Plumes from the Farm) and if you call for no other reason than to leave your name and incidentally look at our stock, we will be grateful to you.

This sale is under the direction of

WHEN TEDDY GOES TO THE SENATE.

WHERE PRESIDENT ROOSEVELT AND THE CZAR OF RUSSIA RESPECTFULLY WILL EAT DINNER TO-MORROW.

While it is an accepted fact that the czar of Russia would like to "eat Turkey" (the country) it is also true he greatly enjoys the fowl.

President Roosevelt is today eating his Thanksgiving dinner in the White house in his private dining room and has gathered around him the members

of his family. His dining room is much the same type as other American dining rooms, not as elaborate as many of the wealthy class, although

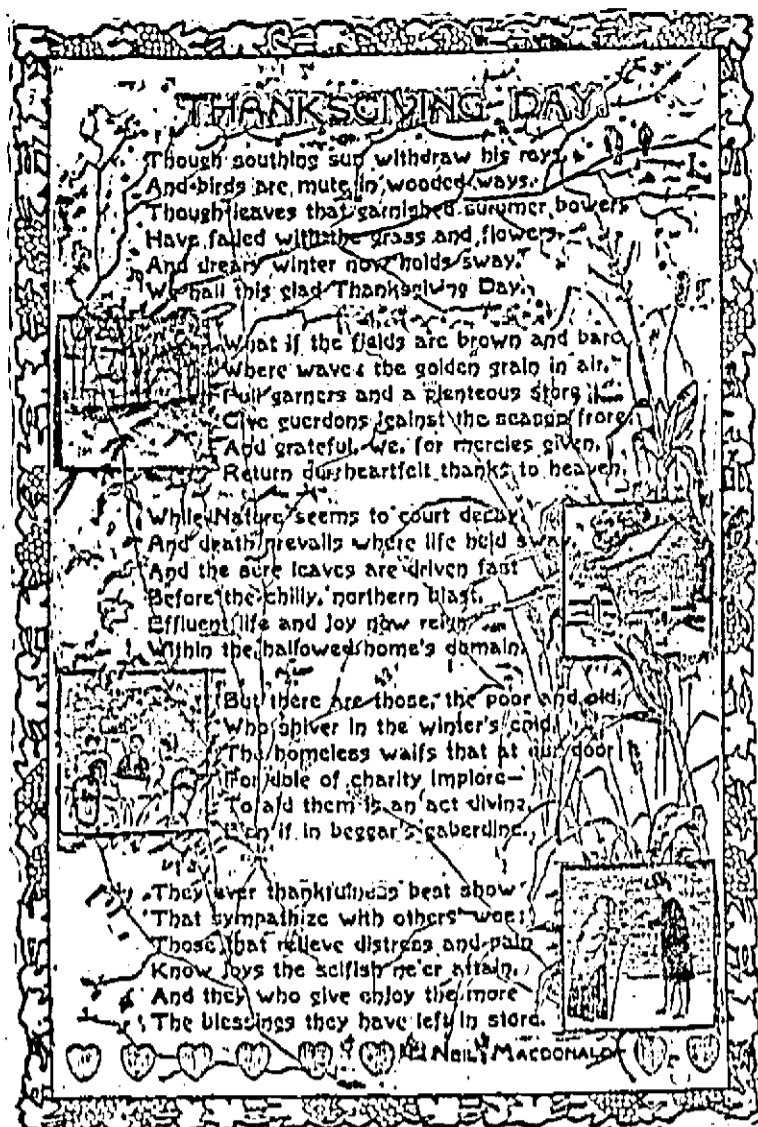

beautiful in its appointments. The czar of Russia will eat at one of the most unique tables in the world. It is not generally known that for centuries the disappearing table and the appearing plates have been in use in Russia and other foreign countries with great success. Formerly the entire table disappeared through the floor into the kitchen and was there fitted up with the next course and again raised. But this was too cumbersome and the genius of the Russian mechanic perfected the system now employed, which was a tube, the diameter of a little greater than the plate and in this tube is a dummy waiter, which slides down into the kitchen and there the plate for the next course is put on. In this way no servants are necessary in the room itself and it is considered much safer for the czar and much more convenient.

**Poverty and Prosperity.** The problems of poverty and labor have become more and more puzzling the further we have gone along in national prosperity, and none feel the bewildering nature of the present state of things more than those who have daily to suffer from its sad effects. — International Theosophical Chronicle.

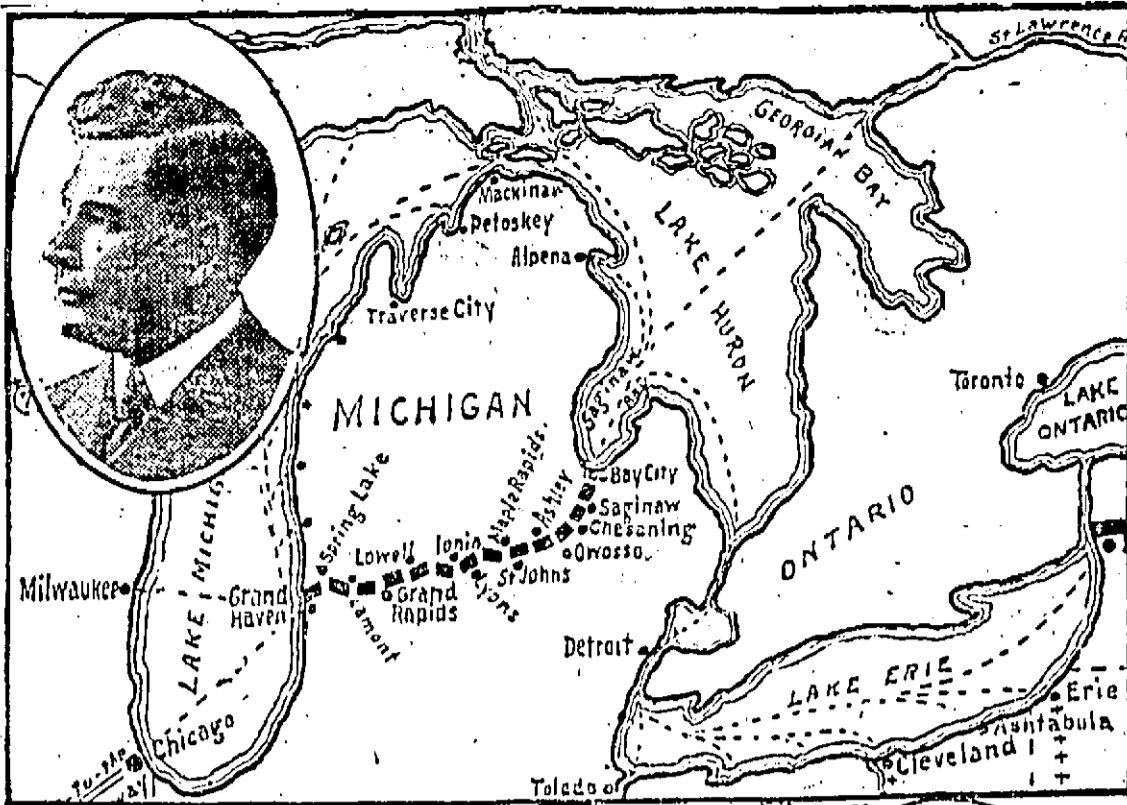

**A Preliminary.** "How would you start in to educate the Philippines?" "Well," answered the man who has been among them, "if I had my way, the first thing I should do would be to send over a hazing party and a football team."

### HELPFUL WORDS

From a Janesville Citizen. Is your back lame and painful? Does it ache especially after exertion? Is there a soreness in the kidney region? These symptoms indicate weak kidneys. There is danger in delay. Weak kidneys fast get weaker. Give your trouble prompt attention. Doan's Kidney Pills act quickly. They strengthen weak kidneys. Read this Janesville testimony. Mrs. B. F. Jones, living at 157 West-ern Ave., Janesville, Wis., says: "I used Doan's Kidney Pills and found them to be a very reliable remedy for backache and kidney trouble. I suffered from pains in my back for years and although I took different remedies, I received no relief. I could not walk upright and had a constant dull pain across my loins. If I sat for a while I could scarcely get up and at night could not rest comfortably. I noticed Doan's Kidney Pills highly recommended and thinking they might benefit me, I procured a box from the People's Drug Co. They cured my trouble in a short time. My back has been strong ever since, and my kidneys are regular and normal in their action. Doan's Kidney Pills are a reliable kidney remedy and worthy of all the praise I can give them." For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

A THANKSGIVING POEM.

PROPOSED DEEP WATERWAY ACROSS MICHIGAN.

DYRON G. CORYELL, PRESIDENT OF THE GRAND-SAGINAW VALLEYS DEEP WATERWAY ASSOCIATION, AT TOP, CHARLES S. HATHAWAY, SECRETARY OF THE ASSOCIATION, AT LOWER LEFT, GEORGE W. BUNKER, ENGINEER IN CHARGE, LOWER RIGHT.

Grand Rapids, Mich.—The impetus given inland waterways by the Roosevelt administration has taken root in Michigan. A deep waterway 120 feet wide and 21 feet deep across the lower peninsula from Grand Haven to Saginaw in the purpose of the Grand-Saginaw Valleys Deep Waterways Association.

The members of the association, basing their faith upon the recommendations of such eminent hydraulic engineers as Lyman E. Conley, Alfred Noble and the late George Y. Wacker, are convinced, however, that such a waterway is feasible and practical.

They believe, upon the showing made by the Michigan state geological survey, that such an enterprise may be carried to perfect realization at a reasonable cost, and that it would prove of inestimable industrial and commercial value to the entire country.

Just what the results of a deep waterway across Michigan will be is not hard to determine. The distance saved by this canal in all shipments around the peninsula from Chicago to Detroit, is approximately 400 miles. In other words freight from Chicago to Detroit could be shipped by water at a much lower freight rate than is now possible through the carrying of this distance and the necessary expense connected with carrying freight this 400 miles.

A second point is that the boats would be assured of a safe passage in quiet water instead of the treacherous lakes, and this alone would be a considerable saving for yearly many vessels go on the rocks in this trip around the lower peninsula.

By making it a deep waterway, as proposed the lake steamers could pass through this, and thereby avoid the necessity of reloading any cargoes. This would afford a cheap outlet for the grains of the middle western states and by passing through the Grand-Saginaw valleys canal, down through Lake Erie and the Erie canal to the Hudson and New York bays would have practically a straight course from Chicago to New York, and would be able to deliver grain in New York city at a cost less than one-third of the present railroad freight rate from Chicago to New York.

This is not all, for it would assure transportation where now the railroads are unable to handle the freight

In a rush season in the middle west, it would also afford a continuous passage from the eastern sections of Canada through the canal and the lakes to the Gulf waterway to the Gulf of Mexico itself.

No figures have been definitely obtained as to the cost of this canal, but after the meeting held next week at Saginaw, plans will be formulated and work commenced on the preliminary surveys in order to determine this cost. The most available recent surveys show that the highest point which the canal will have to go over will be 72 feet above Lake Michigan. This will necessitate several locks along the canal. Already the government has expended several hundred thousand dollars in dredging out a lake level canal from Grand Rapids to Lake Michigan and from Saginaw to Saginaw bay, all of which work could be utilized in the new canal.

In Michigan the effect would be very marked, as it would give the cities along the route practically a lake frontage, so far as transportation is concerned.

The industrial, commercial and agricultural growth of the United States has merely begun. Already the states of New York, Pennsylvania, Ohio, Indiana, Illinois and Wisconsin are in action collecting data, securing surveys, creating public opinion as to the conditions and relations which exist and may be developed between their business interests and the great lakes, the Mississippi and the Ohio rivers, when lateral deep waterways are built through their respective territories and those great trunk line channels.

Twenty-five years hence those communities will have the advantage of all-water freight rates from nearly every point within this borders to any point in the great lakes district and in the valleys of the Mississippi,

the Ohio, the Missouri and the Red rivers—that is to say, they will if the people of Michigan awaken to a realization of their opportunity.

If the Grand-Saginaw Valleys Deep Waterways association fails to prove that which is believed to be true in the matter, then the cities of Saginaw, Owosso, Lansing, Jackson, Battle Creek, Kalamazoo, Grand Rapids and all intervening industrial and commercial centers will be under the ban of a business handicap which will prevent them from competing with such centers in the other states that are more favorably situated.

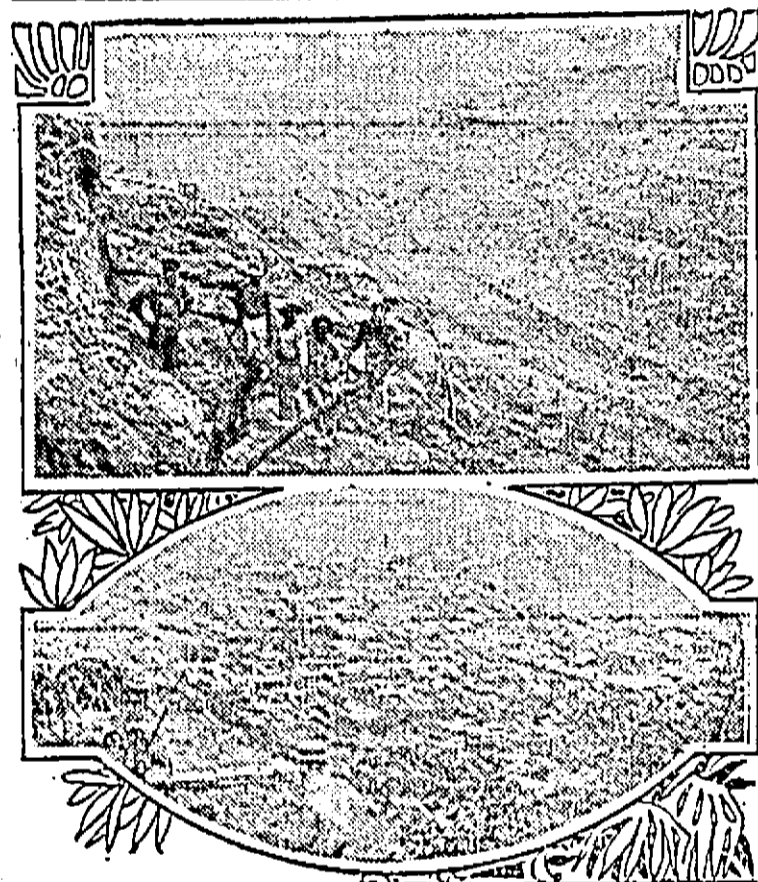

If the present object of the association is successfully carried out the freight handicap may be abolished—and it is the cost of transporting raw materials and finished products that says what the profit in an industrial or commercial enterprise is to be—cheap electricity generated by the water powers developed by the canal, will be abundant, thousands upon thousands of useless acres of worthless land will be reclaimed and placed upon the states tax list; millions of tons of high-grade coking coal and other millions of tons of high-grade salt may be mined and marketed, whereas, today these deposits are waiting only for cheap power and cheap transportation. Then, too, Michigan's annual loss of millions, by the destruction of property and the interruption of business, by floods, will be prevented.

It is to bring about those desirable results through co-operative efforts toward the development of the national system of international deep waterways that the Grand-Saginaw Valleys Deep Waterway association has begun its campaign of securing, compiling and publishing authentic information on the subject. It is an effort which requires courage, determination, skill and high-grade public spirit and it is an effort which means much to the future welfare of our state.

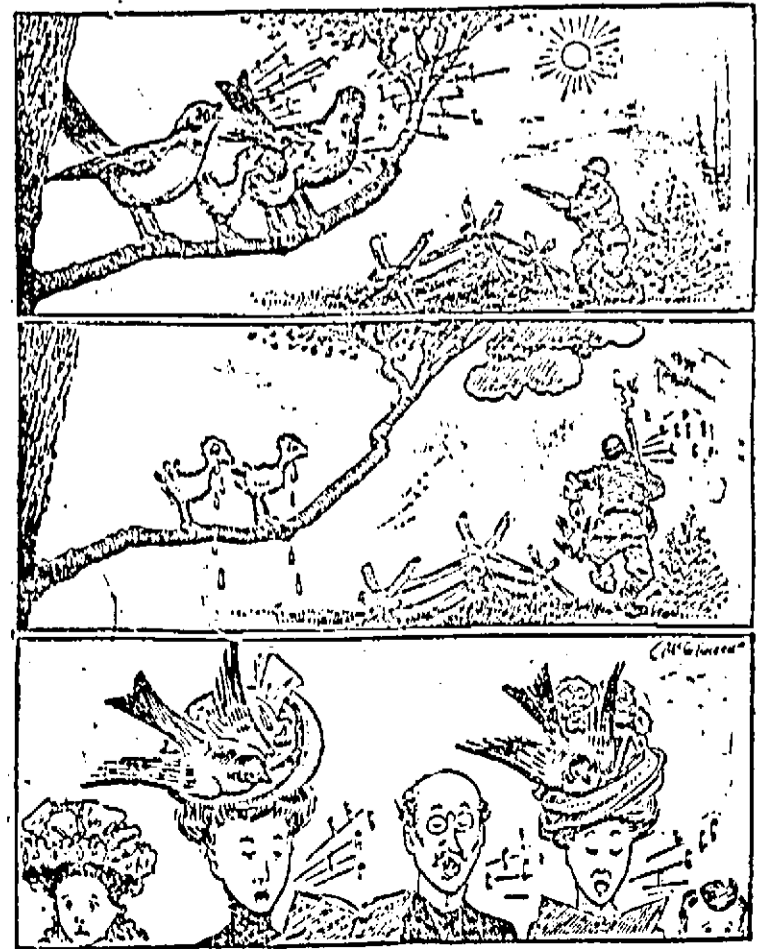

LEROT FRANTZ AT RIGHT, CAPT. W. L. M'GEE AT LEFT, WILLIAM STRONG IN CENTER, THREE OF THE PRINCETON CROSS COUNTRY TEAM—CAPTAIN DULL OF THE MICHIGAN TEAM BELOW.

Michigan is going to compete with the east for a second time within the brief space of one week. The outcome of the Michigan-Princeton football game was most disastrous to the backers of the west, but they go into the field of running with more hopes than they did in football. Running has always been Michigan's specialty and this season she has a remarkable cross country team, which she is putting in the field against Princeton's best material in the cross country meet at Princeton November 21. Princeton has always some individual stars in cross country work, but has been handicapped by lack of sufficient material, while Michigan seems to have on hand cross country stars almost without limit. Captain Dull of the Michigan team is himself a remarkable runner and carried off some nice prizes in the Olympic games at London this summer.

EMPEROR OF CHINA AT LEFT, DOWAGER QUEEN AT RIGHT.

Peking—The emperor of China is dead, after a protracted illness, and the dowager queen is also dead. Prince Chun has been promoted to the regency and his infant son, Pu Wei, is to be his presumptive. The oldest prince, Prince Chun, precedes over all other princes.

Very little mourning is noticed in the Chinese capital for the late emperor and general satisfaction is expressed in the appointment of Prince

Chun. His appointment satisfies the reformers and appeals to the sentiments held by the people for Prince Chun because it represents close blood ties in the matter of the succession and introduces a new and more modern element into the government of the empire. The appointment is evidence of victory for the reformers. Prince Chun is now head of the state and in this is recognized the reform of the dowager empress should who survive.

Cement for Glass.

Melt a little borax in a splitt of wine; add a small quantity of water; warm the mixture gently over a moderate fire. When mixed by thoroughly melting it will form a perfectly transparent glue, which will unite glass so nicely and firmly that the joint will scarcely be noticed by the most critical eye.

Formosa's Sugar Exports.

Formosa, with its population of 5,000,000, is running the Philippines neck and neck in the export of sugar. Each exported a value of \$1,000,000 in 1907.

Dr. D. Jayne's Tonic Vermifuge is a splendid, natural tonic, for attaining a permanently healthy constitution.

## No Rosin in It

Nothing but high grade soap and naphtha in P. & G. Naphtha Soap.

The first thing you notice, when you unwrap a cake of P. & G. Naphtha Soap is the color of it—white.

That shows there is no rosin in it.

Most naphtha soaps are yellow—they contain rosin.

There is a saying among soap manufacturers to the effect that 5 per cent. rosin in soap is all right; more than 5 per cent. is all wrong.

Some naphtha soaps contain as much as 25% rosin. Do you know why? Rosin is cheap. That is why.

And so we offer this advice: Never buy any other than a white naphtha soap.

P. & G. Naphtha Soap is white—there is no rosin in it.

5 cents a cake; worth more.

## OUR FOUR-YEAR QUEENS.

SARAH POLK, WIFE OF PRESIDENT POLK, AND MISTRESS OF THE WHITE HOUSE FROM 1845 TO 1849.

When James K. Polk succeeded Taylor as president of the United States, he brought with him to the White house to share his triumph his wife, Sarah Polk.

Mrs. Polk was a strict Presbyterian. During her regime there were no more dances in the president's house no more who at his levees. She set a new standard of social life in the White house, and no greater reformer ever held sway in a social life at Washington than she. This does not mean that Mrs. Polk was not thoroughly capable, for she enjoyed her position and filled it gracefully in marked contrast to poor Mrs. Taylor, who followed her. The wife of the "ignorant frontier colonel" had no heart for mansion, and spent disconsolately in a corner of the White house while her daughter, Betty Tyler Bliss, took the helm and the administration tried with ostentatious brilliancy to shine down the cavalier. Mrs. Polk will always be remembered as the somewhat sternly religious social reformer who lived up to her principles and thereby won the admiration of the entire country.

GEORGE S. TERRY, NEWLY APPOINTED ASSISTANT TREASURER OF THE UNITED STATES TO SUCCEED HAMILTON FISH, RESIGNED.

Washington—The president has just appointed George S. Terry assistant

treasurer of the United States at New York city to succeed Hamilton Fish, resigned.

Throughout the presidential campaign Mr. Terry acted as assistant to Treasurer George H. Sheldon at the republican national headquarters in the Metropolitan life building, and had almost complete control of the business side of the fight. He is said to have been recommended to President Roosevelt by Representative Van Vleet of New York, as well as by National Treasurer Sheldon.

I was in a friend's office down town," he said, "when my friend, who was looking at the ticker tape suddenly exclaimed, 'Go, white! this is great!'" Then I looked over his shoulder and read the news of my appointment.

Under Mayor Strong Mr. Terry was secretary of the dock board, and under Mayor Seth Low was secretary of the park board. For the five years, 1898-1902, he was secretary of the Union League club.

## Old Connecticut Milestones.

In Old Lyme, Conn., is one of the celebrated Franklin milestones which in 1776 saw Washington pass into Lyme on his way from Cambridge after the British had evacuated Boston. Franklin measured the miles by a machine of his own invention, attached to his chaise, the ancestor of our cyclometer.

## The "Eternal Feminine."

Among some African tribes, when a man professes his love for a woman and asks her in marriage, she invariably refuses him at first lest it should appear that she had been thinking of him and was eager to become his wife. By so doing she maintains the modesty of her sex, as well as tests the love and abases the pride of her lover.—London Wide World Magazine.

Edward G. Hoffman, Backed by Indiana Democrats for James A. McNamee's seat in the Senate.

Port Wayne, Ind., Nov. 25.—The boom for Edward G. Hoffman for the United States senate to succeed James A. McNamee is rapidly gaining strength. Mr. Hoffman is a man of exceptional talents and is being backed strongly by the democrats in the northern part of the state as recognition of their work. Indianapolis has the vice presidency of the United States, a republican senator and a host of others and now they want the democratic vote for the second United States senator.

Mr. Hoffman is the man who is backed by the northern part of the state.

In 1906 the democracy, casting about for a leader to redeem Allen county, the once "green spot" from the blight which had fallen upon it, selected Mr. Hoffman for county chairman. It was a happy choice, for he reunited the different elements, wiped out factionalism and brought the county back to its old democratic footing. His success in this led to his selection for district chairman this year, and the result demonstrates the wisdom of the choice. Allen county's majority is the largest in its history; sweeping democratic victories and increased democratic majorities in DeKalb, Noble and Whitley counties, greatly reduced majorities in the republican counties of Steuben and Lagrange, and a democrat elected to congress afford the best testimony to Mr. Hoffman's success as a leader.

Most of the sons of Indiana who have risen to prominence have been country bred, and so is Edward G. Hoffman, whose friends are strongly urging his election as United States senator to succeed James A. McNamee. Mr. Hoffman was born in Springfield township, Allen county, on October 1, 1877. His parents were among the early German settlers of that region. Edward passed his boyhood on the farm and his life was that of the average country boy, except that he had more ambition than the majority. He was graduated from the common schools at an unusually early age, and later attended Valparaiso college and the University of Michigan, graduating from the law department at Ann Arbor in 1902.

In his student days Mr. Hoffman gave evidence of unusual talent, especially in oratory, and he soon took rank as the university's best debater. In 1902 he was chosen to represent his alma mater in the debate with the University of Pennsylvania. The meeting took place in Philadelphia before a distinguished assembly, and Mr. Hoffman was awarded first honors. The following year he represented the University of Michigan in the debate with Chicago university, and again he won laurels.

After his graduation Mr. Hoffman at once entered upon the practice of law in Port Wayne and has been unusually successful. For three years he has served as county attorney and has made a record as a champion of economy and honesty in public office.

Mr. Hoffman has accomplished more during his brief life than most men achieve at three score. He has all the qualifications of leadership, all the possibilities of statesmanship, and if elected senator he will take rank as the equal, if not the superiority, of Alfred J. Beveridge.

## Indigestion Is Not Really A Disease

Merely a temporary disturbance of digestive functions. Yet it occasions considerable discomfort—if neglected. Also it leads to disease. Kodol insures against indigestion and dyspepsia, by guaranteeing digestion.

It does this by duplicating Nature's digestive process, at its best. Whenever it is required to digest all food taken into the stomach. This affords the stomach complete rest. Most and Nature can accomplish wonders with a sick stomach.

You say, "Kodol must be a pretty good medicine." Here you would be wrong—in a way; Kodol is not a medicine—merely a timely assistant to Nature, when Nature needs it.

The unthinking person would say that digestion takes place in the stomach. As a matter of fact, digestion commences the moment a piece of food is taken in the mouth. The various stages of digestion are mastication, digestion (proper), absorption and assimilation.

The digestive process as a whole is very intricate and delicate. Also, it is exceedingly important that it go forward exactly as Nature intended. Any interference with Nature's work in this connection is apt to prove disastrous. Then is when Kodol is needed. Sometimes it is badly needed.

While indigestion, as stated, is not in itself a disease, medical records show that it induces chronic dyspepsia. This is where Kodol helps. Also, many ailments even more dangerous.

Some of these ailments due to indigestion are apoplexy, heart disease, cancer, and even consumption. All of these are known to result from impure, thin or impoverished blood. Here is where Kodol is needed. Poor digestion brings about

these conditions of the blood. It does so by creating poisons which are fed into the blood and thence, throughout the whole system.

Plain as A-B-C—Isn't it? Yet all this is easily avoided. Whenever the stomach (through abuse or neglect) fails in the performance of its work, Kodol will cheerfully take up that work. It takes it up, just where the stomach left off; digests the food just as the stomach should digest it. Kodol has then accomplished all that is necessary to accomplish.

Kodol is prepared in liquid form. This is essential, in order that all the elements required for complete digestion may be included. Pepsin tablets of course help a little—but pepsin digests only one class of food. Therefore, pepsin is not a complete digester. Kodol is. A job half done is not done at all.

A man who lived in East Grove, Bought a genuine Round Oak Stove. It's merits he'll tell, It pleased him so well, He says it's a hummer, bah-jove.

It is high time that quality in a heating stove had an inning instead of price.

Does it stand to reason that a stove at a ridiculously low price has had something done to turn it out so very cheap? You can bet it has—always. We don't believe anybody wants a cheap, lightweight, flimsy stove.

We don't believe anybody would ever buy one if they could see and examine the stove first.

Ever look over a genuine ROUND OAK heating stove? Ever examine the iron in it—the fit of the doors and draught? Its general elegant, well-made appearance will impress you at once, and when you are needed you can value a cheap stove-pipe iron stove correctly.

It is worth your while to go into the stove subject if you are going to buy. You can start the conversation with us any old time.

The genuine has the name ROUND OAK on the leg and door.

ROCK COUNTY LEADS  
IN THE PROCESSION

In the Banner Republican Stronghold  
of the State This Year—Al-  
ways Well to the Fore.  
Rock county is the banner republi-  
can county of the state. It has a lead  
of over a thousand over its nearest ri-  
val for the honor, Waupaca county,  
and its plurality for Taft is so pro-  
nounced that there is no question in  
the minds of campaign managers that  
good old Rock is as solidly republican  
as its name would signify. Not only  
did it give Taft a handsome vote but  
it also remembered Davidson and  
elected the straight republican ticket  
down to the smallest office.

The official count shows the follow-  
ing ranking figures of the counties:  
1908—Taft.  
1. Rock, 4,009 plurality.  
2. Waupaca, 3,302 plurality.  
3. Trempealeau, 2,648 plurality.  
1904—Roosevelt.  
1. Milwaukee, 13,433 plurality.  
2. Dane, 5,986 plurality.  
3. Rock, 5,024 plurality.  
1900—McKinley.  
1. Milwaukee, 7,194 plurality.  
2. Rock, 5,136 plurality.  
3. Waupaca, 3,901 plurality.

MEDICAL SOCIETY  
MET LAST EVENING

And Listened to a Discussion of "Dis-  
eases of Eye, Ear, Nose and Throat"  
Led By Dr. J. P. Thorne.  
The Rock County Medical Society  
met at the Calverton rooms last even-  
ing and enjoyed an interesting pro-  
gram with Dr. J. P. Thorne as leader.  
The topic was "Diseases of the Eye,  
Ear, Nose and Throat." Dr. Thorne  
and Dr. Nye and Burdick of De-  
loit read papers.

CIVIC CLUB DISCUSSED  
PROBLEMS OF HEALTH

At Monthly Meeting in the Baptist  
Church Parlor Last Evening—  
An Interesting Program.  
At the Baptist church parlor last  
evening the Civic Club enjoyed its  
monthly meeting and a discussion of  
subjects directly related to the public  
health. Frank Drake read a paper on  
Louis Pasteur and his work. W. N.  
Worlock spoke on the subject of "Tu-  
berculosis." Frank Dunkley on "Mu-  
nicipal Sanitation;" and Dr. R. W. Mc-  
Linden gave a general address on Good  
Health. J. S. Taylor told about an  
American composer and one of his  
works.

## MATRIMONIAL.

Fitzpatrick-Smith.  
The wedding of Miss Gertrude Fitz-  
patrick and John Smith was solemn-  
ized at St. Mary's church yesterday  
morning, the Rev. Fr. W. A. Goshel of-  
ficiating. The bride is an accomplish-  
ed young lady and the groom is a son  
of Mr. and Mrs. Edwin Smith of this  
city and a successful young business  
man. After a short wedding trip the  
happy couple will go to house-keeping  
in a cozy home on East street.

Audited Bills: The executive com-  
mittee of the republican county com-  
mittee met yesterday at the Grand ho-  
tel and audited the recent campaign  
expenses and enjoyed a dinner togeth-  
er, the guests of the chairman, H. L.  
McNamara.

Dancing Party: At the Spanish-Am-  
erican War Veterans' hall last even-  
ing about seventy-five couples enjoyed  
a dancing party and oyster supper.

NO DYSPEPSIA  
AFTER TODAY

More Gastric Juice and No Ferment-  
ation in Your Stomach Will  
Cure Dyspepsia.

If what you just ate is souring on  
your stomach or flows like a lump of  
lead, refusing to digest, or you belch  
Gas and Eructate sour, undigested  
food or have a feeling of Dizziness,  
Heartburn, Fullness, Nausea, Indis-  
taste in mouth and Stomach headache  
—this is Indigestion.

A full case of Pape's Dipepsin costs  
only 50 cents and will thoroughly cure  
the worst case of Dyspepsia, and leave  
sufficient about the house in case some  
one else in the family may suffer from  
Stomach trouble or Indigestion.

Ask your pharmacist to show you the  
formula plainly printed on these 50-cent  
cases, then you will under-  
stand why Dyspepsia trouble of all  
kinds must, and why they usually  
relieve a sour stomach or Indigestion  
in five minutes. Get a case now and  
eat one Triangulo after your next  
meal. They are harmless and taste  
like candy, though each contains pow-  
erful sufficient to digest and prepare for  
assimilation into the blood all the  
food you eat; besides, it makes you  
so to the table with a hearty, healthy  
appetite; but, what will please you  
most is that you will feel that your  
Stomach and Intestines are clean and  
fresh, and you will not need to resort  
to laxatives or liver pills for Bili-  
ness or Constipation.

This city will have many Diapiesin  
cranks, as some people will call them,  
but you will be cranky about this  
splendid stomach prescription, too, if  
you ever have Indigestion or Gastritis  
or any other Stomach misery, and eat  
just one Triangulo of Diapiesin.

MOTHER FORSAKES  
HER OWN CHILDREN

Madison Courts Had Tale Told Them  
Regarding Woman Now Living  
in Janesville.  
Because the mother forsake them  
and the father is unable to properly  
care for them, Audrey M., Leon M.  
and Alvin L. Sweet, three bright lit-  
tle boys, were committed to the home  
for dependent children at Sparta by  
Judge Zimmerman of the Dane county  
court yesterday. They are 10, 7 and  
4 years old, respectively. The father  
kept the youngest child, a three-year-  
old girl.

The commitment of the children  
disclosed a sad and heart-breaking  
story. Their father, John M. Sweet,  
is a teamster residing at Stoughton,  
and their mother left home about a  
month ago. She went to live with a  
family at Edgerton. After being away  
for some time she returned home and  
it appeared as though husband and  
wife had made up again. But Mrs.  
Sweet left home for the second time  
and returned to Edgerton. Her hus-  
band followed her to that city and  
planned with her to come back home  
as the children needed the care of a  
mother. Mrs. Sweet returned with  
him, but she stayed only a short  
while. She went back to Edgerton.  
When it was learned that the family  
with whom the mother resided would  
remove to Janesville, and that she  
would go with them Poor Commissioner  
or L. C. Kravick of Cambridge went  
to Edgerton to investigate the case.  
Mr. Sweet said that the reason why  
that Mrs. Sweet absolutely declined  
to care for the children and asked  
Mr. Kravick to have them committed  
to the Sparta institution.  
Mr. Sweet is unable to give the chil-  
dren the care they should have, and  
he also consented to their commit-  
ment. In a letter written by Mrs. Sweet  
at Janesville she says that she learned  
that the court would take up the  
matter of the commitment of her chil-  
dren to the Sparta school November  
23. She wrote:

"I pray the court to commit my  
children to said institution, being that  
I am unable to care for them, and  
having left my husband for reason  
that I do not like to make public."  
In gathering up articles at the  
Sweet home 117 alms novels were  
found which, it is said, were bought  
and read by Mrs. Sweet.

MONEY ORDER SALE  
SHOWS PROSPERITY

Sale for November Shows Increase  
and Christmas Rush Has  
Not Commenced.

This prosperity is again returning  
to Janesville and that work is be-  
coming more plentiful might be in-  
dicated by the number of money orders  
that are being sold at the Janesville  
Post Office. The total number of  
orders that have been sold in the  
month of November thus far is in  
excess of the number sold at any  
other time, but it is not yet defini-  
tely known how much larger it is in  
the aggregate than it has been in  
past years.

The registry department at the lo-  
cal office have not as yet noticed  
any indications of the coming Christ-  
mas rush; but it is expected that a  
fourfold increase in the sale of these  
little pieces of paper will be noticed  
in the latter part of the month.

In the larger cities such as Chicago,  
New York, Baltimore, Philadelphia  
and Milwaukee the Post Office depart-  
ment have issued a stamp to facili-  
tate the handling of the crowds that  
line up before the registry windows.  
This scheme was tried a year ago  
in the Post Office in Washington and  
it is now being tried in other large  
cities. It is adhesive and is used to  
fasten the place of the registry re-  
ceipt and the stamps on the checks.  
The number of the order is written  
on this stamp and it is given out and  
a record of it is made in the Office.  
When the rush is over the regular re-  
ceipt is made out, but the stamp is  
just as good for the time being and  
with the use of it they are better able  
to handle the Christmas business.  
This system for use at Christmas  
time may eventually be put in use in  
some of the smaller postoffices and  
Janesville's Post Office force may in  
time be allowed to use it.

THANKSGIVING DANCE  
AN ANNUAL AFFAIR

Golf Club Party Tomorrow Evening  
Will Be More Elaborate  
Than Ever.

Thursday evening the annual  
Thanksgiving night dance of the Sin-  
cinnati Golf club will be held in As-  
sembly Hall. Mrs. P. B. Farnsworth,  
chairman of the house committee,  
who has had charge of the arrange-  
ments, announces that the sale of  
tickets has been exceptionally large  
and reports from Edgerton and De-  
loit are that several parties will come  
from those two cities. Krell, the  
Chicago orchestra leader, will be here  
with his orchestra and will give a  
brilliant concert starting at eight  
o'clock. This will be followed by  
dancing, which will continue until  
three in the morning for those who  
wish to remain. The dance is under  
the management of the house com-  
mittee composed of Mrs. Farnsworth,  
chairman, Mrs. John Rexford, Miss  
Vera Wilcox, William Rager, Jr., and  
Henry Carpenter. An informal re-  
ception committee composed of Mr.  
and Mrs. W. G. Wheeler, Mr. and Mrs.  
P. B. Farnsworth, Mr. and Mrs. John  
Rexford, Miss Wilcox and Mr. Car-  
penter will greet the dancers at the  
door. The decorations promise to be  
exceptionally fine. For the accompa-  
nyment of the guests who may desire  
light refreshments the committee  
made arrangements with Mrs. Louise  
Haworth to prepare for this possi-  
ble contingency at her own risk, so  
it is not included in the regular dance  
program. The committee also invites  
former members of the Shurt Walst  
& Business Suit club and of the In-  
dian club parties to attend.

ANNUAL RECEPTION  
HELD AT SEMINARY

Good Program of Instrumental and  
Vocal Selections Was Given  
During Evening.

[SPECIAL TO THE GAZETTE.]  
Evanston, Nov. 24.—The annual  
school reception of the Seminary was  
held in the chapel last evening and  
was one of the pleasantest occasions  
of the season. Upon the arrival of  
the guests they were presented to the  
faculty by the Misses Lewis and Tier-  
ney. A wisely chosen and beautifully  
rendered program was a part of the  
evening's entertainment. An instru-  
mental solo by Mr. Watson, a recita-  
tion by Miss Loh Burkholder, two im-  
personations of life in the South by  
Miss Whiteley, a duet by Florence  
and Douglas Webb, piano solos by  
Miss Anna Sturdevant and numerous  
fine selections from the graphophone  
of Wesley Winn were much enjoyed  
and appreciated. The room was taste-  
fully decorated with plants and ferns,  
and the class colors, yellow and  
black, were very much in evidence.  
Miss Fannie Powles has issued in-  
vitations to an "at home" to be given  
Saturday afternoon, Nov. 28.

W. D. Tuller just sold his restaurant  
and bakery to Charles Barnham of  
Nebraska. Mr. Barnham assumed  
possession today.

Monte Mahlo of Chicago, an engineer  
on the C. & N. W. railroad, is here vis-  
iting his grandfather, J. D. Mahlo,  
and other relatives.

Mrs. M. Conroy of Janesville ap-  
pointed the funeral of her cousin, Mr.  
Henson, which was held at the home  
of Chas. Benson Monday afternoon.

Mr. and Mrs. O. C. Colony are to  
entertain at a Thanksgiving dinner  
and will have as their guests Dr. Col-  
ony and family and Mrs. M. V. Pratt  
and the families of Frank Tupper and  
Frank Ballard.

Miss Mildred Legge and Miss Ina  
Shurman will go to Chicago Wednes-  
day to remain until Monday with re-  
latives.

Mr. and Mrs. Low Van Wart will  
give a six o'clock dinner to a number  
of their friends this evening.

Walter Green's family have moved  
into the handsome new house on  
School street just erected by Mrs.  
Green's father, H. E. Hayward. Mr.  
and Mrs. Green go into the residence  
with the intention of buying it for a  
home.

Mr. and Mrs. Ernest Ballard and  
son Lawrence spent Sunday at the  
home of Mr. and Mrs. Thos. Wallace  
in Janesville.

Alfred Dixon is entertaining  
his sister, Mrs. Estelle of Livingston,  
Wis. Mrs. Dixon also has with her a  
nephew, David Dautler, who will re-  
main in this city and become a student  
at the Seminary.

Mrs. E. Harris returned Saturday  
from a visit of over two weeks with  
her daughter, Mrs. Adell Ballard at  
Union.

Mr. and Mrs. Claude Danks who  
have been spending the past month  
in this city, have returned to their  
home in Stoughton.

Mr. and Mrs. Carl Anderson of  
Brooklyn were Sunday guests at the  
home of A. B. Graves.

Word has been received that Mr.  
and Mrs. Dell Glidden of Brookline, S.  
Dakota, (formerly of Evansville) had  
a narrow escape from suffocation by  
gas one day last week, the chimney  
having become filled with soot and  
leaves. They felt somewhat ill and  
started to retire early, in so doing Mr.  
Glidden fell into a stupor. Mrs. Glid-  
den went to telephone for a doctor  
but fell before reaching the phone.

Boomers heard the commotion and in-  
vestigating the cause found the condi-  
tion of affairs. It was several hours  
before the couple were pronounced out  
of danger. Evansville people should  
take warning and see that their chim-  
neys are in good condition.

Mrs. E. M. Shaffer is having a visit  
from her sister, Mrs. Verna Sharp-  
steen of Michigan. Mrs. Sharpsteen  
has been ill and Mrs. Shaffer went  
to Chicago and met her sister, bring-  
ing her home with her.

O. P. Graves of Deoit is visiting in  
this city at the home of his son, A.  
B. Graves.

Mr. and Mrs. Harry Lee visited Will  
Worthing and family in Chalmers Sun-  
day.

Mrs. O. D. Moon who has been vis-  
iting local relatives recently left for  
Deoit City, Neb.

Mrs. and Mrs. Burr Tolles and son  
Donald returned Sunday from a two  
week visit with relatives at Fairchild  
and Marshall.

TURKEY MARKET IS  
GOOD; MANY BIRDS

For Sale at Reasonable Prices—De-  
mand Less in Cities Through-  
out the State.

Tomorrow is Thanksgiving day and  
today the busy housewives are prepar-  
ing good things for the table. Of  
course the first thing thought of in  
our conception of Thanksgiving Day  
is the mammoth turkey with the lov-  
ely sauce and good things which ac-  
company it. The local markets have  
been quite well supplied with the  
Thanksgiving bird, partly due to the  
fact that there has not been so great  
a demand from here in the cities.  
The warm foggy weather has made  
it impossible for the commission men  
to hold them in storage and they  
have had to release them. The prices  
this year will be lower than last  
year when they went as high as twen-  
ty-two and twenty-four cents. This  
year they will range from eighteen  
to twenty cents and some very good  
birds are being sold at eighteen cents.  
The other fowls, ducks, geese and  
chickens will supply the wants of  
some households. While many do not  
consider these the proper food for our  
great feast day, yet to many they are  
just as desirable as turkey. Of these  
the markets are also well sup-  
plied and prices are such that they  
are quite within the reach of all.  
Some of the butchers in this city say  
that the sales of ducks and geese will  
be hurt by the rallies which the au-  
tumn are holding, and which attract  
the trade and draw the money of  
some of the poor. It will not, how-  
ever, injure their trade. All of the  
turkeys will be sold and orders will  
come in for more than they have on  
hand.

CANVASSING BOARD  
FINISHES ITS WORK

Green County Vote Now Tabulated  
and Tables Sent to Madison  
For Filing.

[SPECIAL TO THE GAZETTE.]  
Monroe, Wis., Nov. 25.—The canv-  
assing board completed its labor of  
counting the vote in Green county last  
evening and finished filing out the  
tables which will be sent to Madison  
for filing. The work of making the  
canvass was interfered with the past  
two weeks by the meetings of the  
county board which took up the time  
of County Clerk L. M. Stauffacher and  
W. F. Truckenbrod, chairman of the  
canvassing board.

Miss Anna Baltzer, who was operated  
upon for appendicitis at the Loof-  
brow hospital here by Dr. W. H.  
Palmer of Janesville, lies in a very  
critical condition. The operation was  
serious because of the great quantity  
of puss that had gathered around the  
appendix. The child is the 14-year-  
old daughter of Mr. and Mrs. M. E.  
Baltzer. She was stricken last Satur-  
day and had not complained of being  
ill before then.

Hyde park, which is one of the most  
attractive pieces of ground in Monroe  
for summer outings, is being cleared  
of its timber and the land will be  
sold off in lots. The investment at  
present is not a paying one to the own-  
ers.

Because the county board agreed to  
appropriate only \$15 to each publisher  
who printed the official proceedings of  
the county board's session of his news-  
paper the official minutes will proba-  
bly not be printed. None of the four  
newspapers of the city have so far  
been tempted by the board's allow-  
ance.

A 40x70 foot barn was raised on  
the farm of L. Chesebro, a mile east  
of Janesville, by forty men who aided  
him with the job.

A farm of 210 acres in Jefferson  
township was sold at administrator's  
sale to R. D. Searls for \$71.50 an acre.  
The land belonged to the estate of J.  
H. Searls.

## Self-Loys.

Self-love is a principle of action;  
but none so close of human beings  
has nature so profusely distributed  
this principle of life and action as  
through the whole negative family of  
genius.—Lance Clarendon.

GROWS HAIR  
ON BALD HEADS

Bald Headed People May Get a New  
Chance in Life.

In these days when youth is the  
moving factor in business; when a  
man makes his mark at thirty-five and  
is ready to retire at forty-five; when  
business houses pension the man who  
will lagging influence to intrude upon  
the commercial rush, a bald head is al-  
most fatal to any man's hopes. The  
following must therefore prove inter-  
esting to people who are losing their  
hair or who are bald.

Research is one of the latest and  
most effective germ killers discover-  
ed by science, and in connection with  
Rexal Tonic, which is both germi-  
cidal and antiseptic, a combination is  
formed which destroys the germs  
which rob the hair of its nutriment,  
and also creates a clean and healthy  
condition of the scalp, which prevents  
the development of new germs.

Piloeraphy is a well known agent for  
restoring the hair to its natural color,  
where the loss of color has been due to  
a disease of the scalp. Yet, it is  
not a coloring matter or dye.

This combination of curatives mixed  
with alcohol as a stimulant perfects  
the most effective remedy for hair and  
scalp troubles.

The famous Rexal "93" Hair Tonic  
is chiefly composed of Research, Boto  
Naphthol and Piloeraphy. It makes  
the scalp healthy, nourishes the hair,  
stimulates the follicles. Where the  
head is already bare, it enters the  
follicles, revitalizes the roots, supplies  
nourishment and stimulates a new  
growth.

We want you to try a few bottles  
of Rexal "93" Hair Tonic, on our per-  
sonal guarantee that the trial will not  
cost you a penny if it does not give  
you absolute satisfaction. This is  
proof of our faith in this remedy and  
it should indisputably demonstrate  
that we know what we are talking  
about when we say that Rexal "93"  
Hair Tonic will grow hair on bald  
heads, except, of course, where bald-  
ness has been of such long duration  
that the roots of the hair are entirely  
dead, the follicles closed and grown  
over, and the scalp is glazed.

Remember, we are basing our state-  
ments upon what has already been ac-  
complished by the use of Rexal "93"  
Hair Tonic, and we have the right to  
assume that what it has done to hun-  
dreds of others it will do for you. In  
any event you cannot lose anything  
by giving it a trial on our liberal guar-  
antee. Two sizes, 50c and \$1.00. The  
Smith Drug Co.

## BABY'S ITCH EASILY CURED

Infantile Eczema Quickly Relieved by  
External Use of Oil of Winter  
green Compound.

Infantile eczema, which has baffled  
the skill of the best physicians for  
so many years at last seems to be  
curable—and curable with great ease.  
Results of the last two years indi-  
cate conclusively that baby's Itch, in-  
fantile eczema and other skin diseases  
of children can be very simply cured  
by the application of a compound com-  
posed of oil of wintergreen, thymol  
and glycerine, as in D. D. D. Pres-  
cription.

The Rev. Lewis Stealey, of Weather-  
ly, Pa., writes:

"Our baby boy's little face was so  
dreadfully covered with eczema that  
blood and water ran from the sores  
nearly all the time. After using 3 1/2  
bottles of D. D. D. Prescription we  
are so happy to tell you he is entirely  
cured and the disease has never  
broken out again. If this letter is in  
any way a help to other sufferers, you  
may publish it."

If you have a child which is suffer-  
ing with this terrible Itch, we are sure  
you will not neglect one hour to give  
your baby the right kind of relief.  
We have seen too often how quickly  
the remedy mentioned above takes the  
Itch away at once and how all the  
cures seem to be permanent; we have  
seen this too often to hesitate at all  
in recommending the remedy for  
your children.
